James Alexander Thom, bestselling author of two magnificent historical novels, says about his modern novel, *Staying Out of Hell*: "Like my character, Scotty Montgomery, I grew up in the idyllic prewar Midwest, was a Marine, and later a journalist appalled by the apparent cheapness of life and the world's casual disregard for human suffering. Like my protagonist, I am unable to reconcile my country's two roles: the citadel of humane idealism, and the leading world merchant of death-dealing weapons. I hope by this novel to awaken our benumbed souls to the awful absurdities with which we live." NATIONAL BESTSELLER • "It takes a rare individual not only to see that history can live, but also to make it live for others. James Thom has that gift."—The Indianapolis

News Mary Ingles was twenty-three, happily married, and pregnant with her third child when Shawnee Indians invaded her peaceful Virginia settlement in 1755 and kidnapped her, leaving behind a bloody massacre. For months they held her captive. But nothing could imprison her spirit. With the rushing Ohio River as her guide, Mary Ingles walked one thousand miles through an untamed wilderness no white woman had ever seen. Her story lives on—extraordinary testimony to the indomitable strength of one pioneer woman who risked her life to return to her own people. The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in *The Debates and Proceedings in the Congress of the United States (1789-1824)*, the *Register of Debates in Congress (1824-1837)*, and the *Congressional Globe (1833-1873)* "Focusing on specific texts by Jamaica Kincaid, Maryse Conde, and Paule Marshall, this study explores the intricate trichotomous relationship between the mother (biological or surrogate), the motherlands Africa and the Caribbean, and the mothercountry represented by England, France, and/or North America. The mother-daughter relationships in the works discussed address the complex, conflicting notions of motherhood that exist within this trichotomy. Although mothering is usually socialized as a welcoming, nurturing notion, Alexander argues that alongside this nurturing notion there exists much conflict. Specifically, she argues that the mother-daughter relationship, plagued with ambivalence, is often further conflicted by colonialism or colonial intervention from the "other," the colonial mothercountry." "Mother Imagery in the Novels of Afro-Caribbean Women offers an overview of Caribbean women's writings from the 1990s, focusing on the personal relationships these three authors have had with their mothers and/or motherlands to highlight links, despite social, cultural, geographical, and political differences, among Afro-Caribbean women and their writings. Alexander traces acts of resistance, which facilitate the (re)writing/righting of the literary canon and the conception of a "newly created genre" and a "womanist" tradition through fictional narratives with autobiographical components." --Book Jacket. Alexander Thom has created the rarest reading experience: one that entertains us even as it shows us a new vision of our nation, our past, and ourselves. "Excellent . . . It is at once an adventure story [and] a historical document. . . . Hard Striker saw the unsoma, the birth sign, and named his son Tecumseh, meaning Panther in the Sky . . . readers, powerfully dramatizing their fortitude, fearsomeness, and profound fates. Now he and his wife, Dark Rain, have created a magnificent portrait of an astonishing woman – one who led her people in war when she could not persuade them to make peace. Her name was Nonhelema. Literate, lovely, imposing at over six feet tall, she was the Women's Peace Chief of the Shawnee Nation – and already a legend when the most decisive decade of her life began in 1774. That fall, with more than three thousand Virginians poised to march into the Shawnees' home, Nonhelema's plea for peace was denied. So she loyally became a fighter, riding into battle covered in war paint. When the Indians ran low on ammunition, Nonhelema's role changed back to peacemaker, this time tragically. Negotiating an armistice with military leaders of the American Revolution like Daniel Boone and George Rogers Clark, she found herself estranged from her own people – and betrayed by her white adversaries, who would murder her loved ones and eventually maim Nonhelema herself. Throughout her inspiring life, she had many deep and complex relationships, including with her daughter, Fani, who was an adopted white captive . . . a pious and judgmental missionary, Zeisberger . . . a series of passionate lovers . . . and, in a stunning creation of the Thoms, Justin Case – a cowardly soldier transformed by the courage he saw in the female Indian leader. Filled with the uncanny period detail and richly rendered drama that are Thom trademarks, *Warrior Woman* is a memorable novel of a remarkable person – one willing to fight to avoid war, by turns tough and tender, whose heart was too big for the world she wished to tame. The book was first published in 1943 and then was reprinted several times with corrections. It presents the development of the classical problem of moments for the first 50 years, after its introduction by Stieltjes in the 1890s. In addition to initial developments by Stieltjes, Markov, and Chebyshev, later contributions by Hamburger, Nevanlinna, Hausdorff, Stone, and others are discussed. The book also contains some results on the trigonometric moment problem and a chapter devoted to approximate quadrature formulas. A legend. A warrior. A hero. A classic American epic. Two centuries ago, with the support of the young Revolutionary government, George Rogers Clark led a small but fierce army west from Virginia to conquer all the territory between the Ohio and Mississippi rivers. He battled the British, forged friendships with French and Spanish settlers, and made treaties with many Indian tribes who revered the lanky, red-haired white man and called him Long Knife. He fell in love with the woman of his dreams, the beautiful Spanish maiden Teresa de Leyba. And George Rogers Clark was, in the end, bitterly betrayed by the same government he had so nobly served. Rich in the heroic characters, meticulously researched detail, and grand scale that have become James Alexander Thom's trademarks,

Long Knife, his first historical epic, is simply unforgettable. Representing a first in gay and Christian publishing, this provocative book presents a complete reversal of thought and action, contending that God loves homosexuals without attempting to refute scripture references. The study confronts its subject with a quirky sense of humor in the spirit of the "bedtime story," providing a rare evangelical Christian volume addressed directly to the gay community. Unorthodox in its presentation, this guide speaks the language of those who may feel abandoned, condemned, and damned while avoiding reinterpretations of scriptural passages, making the gospel accessible to a younger, free-spirited generation. Spearheading a volatile topic with candor and grace, this consideration reframes the never-ending question, Is homosexuality a sin? and instead asks the gay community for a cease-fire—to forgive, love, and help put a stop to a cultural war being waged in the world. Join James Langteaux to discover the sometimes difficult, often thrilling lessons that can only be found on a "road trip with God." Spiritual and practical, God.net takes you on a journey "beyond belief." Paddy Quinn, "the boy who ate rattlesnakes" and lost a hand to a cannon blast during the Mexican War, returns as a famous Civil War correspondent and battlefield sketch artist, in James Alexander Thom's new novel, *Fire in the Water*. Thom is a prize-winning historical novelist, and author of the New York Times bestseller *Follow the River*. The central action in *Fire in the Water* is the tragic explosion and burning of the paddlewheel steamboat SULTANA near Memphis in the last days of the Civil War, killing some 1,800 homebound Yankee survivors of the hellish Andersonville prisoner-of-war camp in Georgia. But the undercurrent of the novel is the national mourning for assassinated President Lincoln, whose corpse was en route on his funeral train to Springfield, Illinois at the time of the disaster. War correspondent Quinn, newly wed in New Orleans, is on board the SULTANA with his bride, assigned to report and illustrate Lincoln's funeral and burial for Harper's Weekly. When Quinn and an Indiana-born prison survivor he's interviewing are blown overboard into the cold, flooded Mississippi by the midnight boiler explosion, it is their grit and resourcefulness, but mostly their vow to get to Lincoln's funeral, that keep them alive as hundreds perish around them in the flame-lit night. *Dangerous Neighbors* shows how the Haitian Revolution permeated early American print culture and had a profound impact on the young nation's domestic politics. Focusing on Philadelphia as both a representative and an influential vantage point, it follows contemporary American reactions to the events through which the French colony of Saint Domingue was destroyed and the independent nation of Haiti emerged. Philadelphians made sense of the news from Saint Domingue with local and national political developments in mind and with the French Revolution and

British abolition debates ringing in their ears. In witnessing a French colony experience a revolution of African slaves, they made the colony serve as powerful and persuasive evidence in domestic discussions over the meaning of citizenship, equality of rights, and the fate of slavery. Through extensive use of manuscript sources, newspapers, and printed literature, Dun uncovers the wide range of opinion and debate about events in Saint Domingue in the early republic. By focusing on both the meanings Americans gave to those events and the uses they put them to, he reveals a fluid understanding of the American Revolution and the polity it had produced, one in which various groups were making sense of their new nation in relation to both its own past and a revolution unfolding before them. Zeroing in on Philadelphia—a revolutionary center and an enclave of antislavery activity—Dun collapses the supposed geographic and political boundaries that separated the American republic from the West Indies and Europe.
