Persian-English English-Persian Learner's Dictionary

Jan 27 2020 The increasing

popularity of the study of Persian (also known as Farsi, Tajiki or Dari) in the English speaking world, has created a need for a bi-directional Persian-English dictionary geared towards English speakers who are learning Persian. The features of the Persian-English / English-Persian Learner's Dictionary which make it unique are: BI-DIRECTIONAL: This is the first and only Persian-English/English-Persian dictionary in one volume which features both Persian and transliteration. ALPHABET: The alphabet used in Persian is completely different from the English. This can be a major barrier in the early stages of

learning the language. This dictionary provides a simple transliteration of the Persian word along with its equivalent in the Persian alphabet. ALPHABETICAL ORDER: In this dictionary, the alphabetical order in the Persian-English section is based on the English spelling. This makes it easy for the user who is not familiar with the Persian alphabet to find a word. CORRECT USE OF WORDS: This dictionary gives synonyms in various contexts allowing the student to easily choose the correct meaning. ENTRIES: Approximately 18,000 entries covering both day-to-day and more specialized vocabulary.

The Audience for this dictionary is: English speaking students of Persian. English speakers who are seeking to communicate with Persian speakers. Children of Iranians, Afghans and Tajiks outside their homeland who wish to learn their mother language. Persian speakers who wish to learn English.

An Etymological Dictionary of Persian , English and Other Indo-European Languages Vol 2 Jul 15 2021
Tracing words to their origins opens a new window to human civilization and culture and helps us understand the roots of some of our present social trends and attitudes. For example, the etymology of

words for family members clearly shows the division of responsibilities in the most basic unit of society - the family. Father was the "protector" of the family (Pa: protect), mother was the "feeder" (Ma: breast), brother was the load "carrier" (Bher: carry) and daughter was the "milker" (Dhugh: to milk). If one makes the effort to read beyond the shallow shell of sounds and symbols, one can recognize our human oneness portrayed in our words and their historical roots. The primary motivation for writing this dictionary is the hope that it would foster a greater appreciation for the commonality in the apparent

variance among different languages and cultures, and ultimately nurture a greater understanding among those who speak apparently different languages. In tracing any Persian word to its origins, its cognates in other Indo-European languages must be considered. In this dictionary, English cognates are regularly referred to along with some other Indo-European equivalents. Altogether, over 1,600 roots and 17,400 derived words are presented in this dictionary. One of the most unique features of this dictionary is its graphical presentation of etymological data, similar to a family tree. The derivations of words are

indicated with arrows rather than lengthy text. The arrows greatly simplify the process of tracing words to their roots.

Lexicography by Iranian has very long record; older than one can imagine it; around 6 centuries sooner that the first European Dictionary was edited. However editing the specialized dictionary, alike other places, is rather new work. The present specialized dictionary is in fact the shorter

edition of what will be furnished within few months. The method of preparing of these specialized dictionaries has been a scientific methods comprising gathering information and arranging in alphabetic form. The shorter editions-Persian-English and English-Persian, are comprised of the main Persian literature terms and their equivalents in English; each term followed by the supplement descriptive essays on more specific terms in Note chapter of the Persian-English volume.

Persian (Farsi)-English Transliterated Dictionary Jan 09 2021 This dictionary uses transliteration as the basis for the word entries and makes it easier for the language learners who are not familiar with the Persian script or are not skilled enough in using it. In those few dictionaries which use transliterations, since the alphabetical order is based on Persian script, it is very difficult and in some cases impossible for a non-native speaker to find the word, especially for those who are at the first stages of learning the language. However, in this method, they would be able to

find the transliteration as quick as the English word and they can match it with the equivalent word in the script. So, this dictionary is the first one which can be used by those who even do not know writing and reading in Persian script.

Arabic and Persian

Loanwords in Tagalog Feb 07 2021 The few, and generally obsolete Tagalog words of Arabic and/or Persian origin that can be found in old and modern dictionaries are fragments from a period when they must have been more numerous, although their number cannot ever have been very large. Some illustrate how Manila was an outpost of the Bornean polity based in Brunei,

itself a part of the Indo-Javanese system, while others point at direct contacts with traders who spoke some varieties of Arabic, but were probably Indians, Persians, Armenians from Persia or even Turks. Thus these terms entered Tagalog over a very long period that lasted until the 19th Century.

Published By: www.LearnPersianOnline.com *Elementary Persian Grammar* Oct 06 2020 Mr Elwell-Sutton's book provides a simple grammatical framework for contemporary written Persian. It is based on the characteristic idiom and phraseology of the language as it is used in newspapers, magazines and novels. The student is introduced to Persian script from the first lesson. Words are fully vocalized in the early lessons, but vowels are

progressively discarded; they are, however, shown in the vocabulary. The letter-forms of printed Persian are used cursive scripts. Although the structure of the language is Mr Elwell-Sutton's immediate concern, he has given close attention to the need for acquiring a workable vocabulary. The examples and exercises thus require only a limited vocabulary of words in fairly common use - about 1500 in all. The student is also given help with pronunciation; at the ends of lessons sample sentences from the exercises are printed with diacritics showing the intonation and stress of each syllable. At the end of the book there is a key

to the lessons.

Persian Words of Wisdom

Dec 08 2020 What is the secret
of happiness? What is the
nature of love? What makes us
good hosts or good guests?
What traits should we seek out
in friends and seek to embody
as friends ourselves? How
should we approach the
sensual beauties of this world-
when do they induce us to
error and when are they signs
of God? The poets and bards of
many traditions have long
sought answers to such
questions, but perhaps no
culture has taken up this
challenge with more passionate
urgency than that of Persia,
from the ninth century AD to
modern-day Iran. These eleven
centuries of poetic tradition
include poets who have become

well-known in the West, such
as 'Umar Khayyam, Rumi, and
Hafiz, as well as many others
whom Westerners have yet to
discover. In Iran these poems
remain part of everyday
popular culture, with people of
all classes and levels of
education able to recite them
from memory, even if they may
not always be sure who the
poets were, where they came
from, or what precisely was the
spiritual intent behind the
verse. In Persian Words of
Wisdom, the US-based Iranian
scholar Bahman Solati has
compiled hundreds of examples
reflecting his country's
religious and spiritual
traditions, especially the Shia
branch of Islam and Islamic

Sufism, but also the Zoroastrian faith. This bilingual edition with his own English translations further illuminates the sometimes enigmatic poems with parallel Western proverbs, as well as comparison quotations from Christian, Jewish, and Buddhist scripture and secular sources ranging from Mark Twain to Dale Carnegie. One of Solati's goals in this anthology is to build a cultural bridge through poetry between the West and Iran, making these treasures of Persian culture more available both to Westerners generally and, most specifically, to young people of Iranian descent who have grown up in the English-speaking world, perhaps

without fully understanding the wealth of their heritage. For them and all readers, this will be a book of discovery.
