#1 NEW YORK TIMES BESTSELLER • ONE OF TIME MAGAZINE'S 100 BEST YA BOOKS OF ALL TIME The extraordinary, beloved novel about the ability of books to feed the soul even in the darkest of times. When Death has a story to tell, you listen. It is 1939. Nazi Germany. The country is holding its breath. Death has never been busier, and will become busier still. Liesel Meminger is a foster girl living outside of Munich, who scratches out a meager existence

for herself by stealing when she encounters something she can't resist—books. With the help of her accordion-playing foster father, she learns to read and shares her stolen books with her neighbors during bombing raids as well as with the Jewish man hidden in her basement. In superbly crafted writing that burns with intensity, award-winning author Markus Zusak, author of *I Am the Messenger*, has given us one of the most enduring stories of our time. “The kind of book that can be life-changing.” —The New York Times “Deserves a place on the same shelf with *The Diary of a Young Girl* by Anne Frank.” —USA Today

DON'T MISS BRIDGE OF CLAY, MARKUS ZUSAK'S FIRST NOVEL SINCE THE BOOK THIEF. Surveys the online social habits of American teens and analyzes the role technology and social media plays in their lives, examining common misconceptions about such topics as identity, privacy, danger, and bullying. Decades of research have demonstrated that the parent-child dyad and the environment of the

family—“which includes all primary caregivers”—are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing

body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further

research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States. THE #1 NEW YORK TIMES BESTSELLER IS NOW A MAJOR-MOTION PICTURE DIRECTED BY RON HOWARD AND STARRING AMY ADAMS, GLENN CLOSE, AND GABRIEL BASSO "You will not read a more important book about America this year."—The Economist "A riveting book."—The Wall Street Journal "Essential reading."—David Brooks, New York Times Hillbilly Elegy is a passionate and personal analysis of a culture in crisis—that of white working-class Americans. The disintegration of this group, a process that has been slowly occurring now for more than forty years, has been reported with growing frequency and alarm, but has never before been written about as searingly from the inside. J. D. Vance tells the true story of what a social, regional, and class decline feels like when you were born with it hung around your neck. The

Vance family story begins hopefully in postwar America. J. D.'s grandparents were "dirt poor and in love," and moved north from Kentucky's Appalachia region to Ohio in the hopes of escaping the dreadful poverty around them. They raised a middle-class family, and eventually one of their grandchildren would graduate from Yale Law School, a conventional marker of success in achieving generational upward mobility. But as the family saga of *Hillbilly Elegy* plays out, we learn that J.D.'s grandparents, aunt, uncle, sister, and, most of all, his mother struggled profoundly with the demands of their new middle-class life, never fully escaping the legacy of abuse, alcoholism, poverty, and trauma so characteristic of their part of America. With piercing honesty, Vance shows how he himself still carries around the demons of his chaotic family history. A deeply moving memoir, with its share of humor and vividly colorful figures, *Hillbilly Elegy* is the story of how upward mobility really feels. And it is an urgent and

troubling meditation on the loss of the American dream for a large segment of this country. Ray Bradbury's novel *Fahrenheit 451* is an enduring masterwork of twentieth-century American literature—a chilling vision of a dystopian future built on the foundations of ignorance, censorship, and brutal repression. The origins and evolution of Bradbury's darkly magnificent tale are explored in *A Pleasure to Burn*, a collection of sixteen selected shorter works that prefigure the grand master's landmark novel. Classic, thematically interrelated stories alongside many crucial lesser-known ones—including, at the collection's heart, the novellas "Long After Midnight" and "The Fireman"—*A Pleasure to Burn* is an indispensable companion to the most powerful work of America's preeminent storyteller, a wondrous confirmation of the inimitable Bradbury's brilliance, magic . . . and fire. After 1989, capitalism has successfully presented itself as the only realistic political-economic

system - a situation that the bank crisis of 2008, far from ending, actually compounded. The book analyses the development and principal features of this capitalist realism as a lived ideological framework. Using examples from politics, films, fiction, work and education, it argues that capitalist realism colours all areas of contemporary experience. But it will also show that, because of a number of inconsistencies and glitches internal to the capitalist reality program capitalism in fact is anything but realistic. #1 NEW YORK TIMES AND WALL STREET JOURNAL BESTSELLER Pay brand-new employees \$2,000 to quit Make customer service the responsibility of the entire company-not just a department Focus on company culture as the #1 priority Apply research from the science of happiness to running a business Help employees grow-both personally and professionally Seek to change the world Oh, and make money too . . . Genealogies. "Wolf restores our awe of the human brain—its adaptability, its creativity, and its ability to connect with other minds through a procession of silly squiggles." — San Francisco Chronicle

How do people learn to read and write—and how has the development of these skills transformed the brain and the world itself? Neuropsychologist and child development expert Maryann Wolf answers these questions in this ambitious and provocative book that chronicles the remarkable journey of written language not only throughout our evolution but also over the course of a single child's life, showing why a growing percentage have difficulty mastering these abilities. With fascinating down-to-earth examples and lively personal anecdotes, Wolf asserts that the brain that examined the tiny clay tablets of the

Sumerians is a very different brain from the one that is immersed in today's technology-driven literacy, in which visual images on the screen are paving the way for a reduced need for written language—with potentially profound consequences for our future. An examination of the AIDS crisis exposes the federal government for its inaction, health authorities for their greed, and scientists for their desire for prestige in the face of the AIDS pandemic. War Against the Weak is the gripping chronicle documenting how American corporate philanthropies launched a national campaign of ethnic cleansing in the United States, helped found and fund the Nazi eugenics of Hitler and Mengele -- and then created the modern movement of "human genetics." Some 60,000 Americans were sterilized under laws in 27 states. This expanded edition includes two new essays on state genocide. The visionary time-travel classic whose Black female hero is pulled through time to face the horrors of American slavery and explores the impacts of racism, sexism, and white supremacy then and now. “I lost an arm on my last trip home. My left arm.” Dana’s torment begins when she suddenly vanishes on her 26th birthday from California, 1976, and is dragged through time to antebellum Maryland to rescue a boy named Rufus, heir to a slaveowner’s plantation. She soon realizes the purpose of her summons to the past: protect Rufus to ensure his assault of her Black ancestor so that she may one day be born. As she endures the traumas of slavery and the soul-crushing normalization of savagery, Dana fights to keep her autonomy and return to the present. Blazing the trail for neo-slavery narratives like Colson Whitehead’s *The Underground Railroad* and Ta-Nehisi Coates’s *The Water Dancer*, Butler takes one of speculative fiction’s oldest tropes and infuses it with lasting depth and power. Dana not only

experiences the cruelties of slavery on her skin but also grimly learns to accept it as a condition of her own existence in the present. “Where stories about American slavery are often gratuitous, reducing its horror to explicit violence and brutality, *Kindred* is controlled and precise” (New York Times). “Reading Octavia Butler taught me to dream big, and I think it’s absolutely necessary that everybody have that freedom and that willingness to dream.” —N. K. Jemisin The series adaption from FX premieres December 13 on Hulu. Developed for television by writer/executive producer Branden Jacobs-Jenkins (*Watchmen*), executive producers also include Joe Weisberg and Joel Fields (*The Americans*, *The Patient*), and Darren Aronofsky (*The Whale*). Janicza Bravo (*Zola*) is director and an executive producer of the pilot. *Kindred* stars Mallori Johnson, Micah Stock, Ryan Kwanten, and Gayle Rankin. millions of lives—with a new afterword by the author “A wonderful book, a story of the heart told by a writer with soul.”—Los Angeles Times

Maybe it was a grandparent, or a teacher, or a colleague. Someone older, patient and wise, who understood you when you were young and searching, helped you see the world as a more profound place, gave you sound advice to help you make your way through it. For Mitch Albom, that person was Morrie Schwartz, his college professor from nearly twenty years ago. Maybe, like Mitch, you lost track of this mentor as you made your way, and the insights faded, and the world seemed colder. Wouldn't you like to see that person again, ask the bigger questions that still haunt you, receive wisdom for your busy life today the way you once did when you were younger? Mitch Albom had that second chance. He rediscovered Morrie in the last months of the older man's life. Knowing he was dying, Morrie visited with Mitch in his study every Tuesday, just as they used to back in college. Their

rekindled relationship turned into one final “class”: lessons in how to live. Tuesdays with Morrie is a magical chronicle of their time together, through which Mitch shares Morrie's lasting gift with the world. A fireman in charge of burning books meets a revolutionary school teacher who dares to read. Depicts a future world in which all printed reading material is burned. Following three teenagers who chose to spend one school year living in Finland, South Korea, and Poland, a literary journalist recounts how attitudes, parenting, and rigorous teaching have revolutionized these countries' education results. This timely reissue of Richard Hofstadter's classic work on the fringe groups that influence American electoral politics offers an invaluable perspective on contemporary domestic affairs. In *The Paranoid Style in American Politics*, acclaimed historian Richard Hofstadter examines the competing forces in American political discourse and how fringe groups can influence — and derail — the larger

agendas of a political party. He investigates the politics of the irrational, shedding light on how the behavior of individuals can seem out of proportion with actual political issues, and how such behavior impacts larger groups. With such other classic essays as "Free Silver and the Mind of 'Coin' Harvey" and "What Happened to the Antitrust Movement?", "The Paranoid Style in American Politics" remains both a seminal text of political history and a vital analysis of the ways in which political groups function in the United States. A powerful depiction of racial tensions arising over the death of a Cajun farmer at the hands of a black man--set on a Louisiana sugarcane plantation in the 1970s. crisis. Americans have built an empire on the idea of “race,” a falsehood that damages us all but falls most heavily on the bodies of black women and men—bodies exploited through slavery and segregation, and, today, threatened, locked up, and murdered out of all proportion. What is it like to inhabit a black body and find a way to live within it? And how can we all honestly reckon with this fraught history and free ourselves from its burden? *Between the World and Me* is Ta-Nehisi Coates’s attempt to answer these questions in a letter to his adolescent son. Coates shares with his son—and readers—the story of his awakening to the truth about his place in the world through a series of revelatory experiences, from Howard University to Civil War battlefields, from the South Side of Chicago to Paris, from his childhood home to the living rooms of mothers whose children’s lives were taken as American plunder. Beautifully woven from personal narrative, reimagined history, and fresh, emotionally charged

reportage, *Between the World and Me* clearly illuminates the past, bravely confronts our present, and offers a transcendent vision for a way forward. I was born to the name of Rachel Weatere in the year 1684, more than three hundred years ago. The one who changed me named me Risika, and Risika I became, though I never asked what it meant. I

continue to call myself Risika, even though I was transformed into what I am against my will. By day, Risika sleeps in a shaded room in Concord, Massachusetts. By night, she hunts the streets of New York City. She is used to being alone. But now someone is following Risika. Someone has left her a black rose, the same sort of rose that sealed her fate three hundred years ago. Three hundred years ago Risika had a family -- a brother and a sister who loved her. Three hundred years ago she was human. Now she is a vampire, a powerful one. And her past has come back to torment her. This atmospheric, haunting tale marks the stunning debut of a promising fourteen-year-old novelist. From the Hardcover edition. A classic work of American literature that has not stopped changing minds and lives since it burst onto the literary scene, *The Things They Carried* is a ground-breaking meditation on war, memory, imagination, and the redemptive power of storytelling. *The Things They Carried* depicts the men of Alpha Company: Jimmy

Cross, Henry Dobbins, Rat Kiley, Mitchell Sanders, Norman Bowker, Kiowa, and the character Tim O'Brien, who has survived his tour in Vietnam to become a father and writer at the age of forty-three. Taught everywhere—from high school classrooms to graduate seminars in creative writing—it has become required reading for any American and continues to challenge readers in their perceptions of fact and fiction, war and peace, courage and fear and longing. *The Things They Carried* won France's prestigious Prix du Meilleur Livre Etranger and the Chicago Tribune Heartland Prize; it was also a finalist for the Pulitzer Prize and the National Book Critics Circle Award. "Both timely and terrifying." —Gregory Macguire, New York Times-bestselling author of *Wicked Pairing* free verse with over three hundred pages of black-and-white watercolor illustrations, *Mary's Monster* is a unique and stunning biography of Mary Shelley, the pregnant teenage runaway who became one of the greatest authors of all

time. Legend is correct that Mary Shelley began penning *Frankenstein* in answer to a dare to write a ghost story. What most people don't know, however, is that the seeds of her novel had been planted long before that night. By age nineteen, she had been disowned by her family, was living in scandal with a married man, and had lost her baby daughter just days after her birth. Mary poured her grief, pain, and passion into the powerful book still revered two hundred years later, and in *Mary's Monster*, author/illustrator Lita Judge has poured her own passion into a gorgeous book that pays tribute to the life of this incredible author. A century on, the story continues to thrill” (The Telegraph). “[A] tense, relentless story of man-against-man adventure, in which the hunter Sanger Rainsford learns, at the hands of General Zaroff, what it means to be hunted.” —Criterion We like to think of ourselves, our friends, and our families as pretty decent people. We may not be saints, but we are basically good, fairly honest, relatively kind, and mostly trustworthy. One of the central themes of 'The Character Gap' is that we are badly mistaken in thinking this way. In recent years, hundreds of psychological studies have been done which tell a rather different story. We have serious character flaws that prevent us from being good people, many of which we do not even recognize in ourselves. Does this mean that instead we are wretched people, vicious, cruel or hateful? Christian Miller does not argue that this is necessarily the case either. "Dazzling. . . . A small independent bookstore in Minneapolis is haunted from November 2019 to November 2020 by the store's most annoying customer. Flora dies on All Souls' Day, but she simply won't leave the store. Tookie, who has landed a job selling books after years of incarceration that she survived by reading "with murderous attention," must solve the mystery of this haunting while at the same time trying to understand all that occurs in Minneapolis during a year of grief, astonishment, isolation, and

furious reckoning. The Sentence begins on All Souls' Day 2019 and ends on All Souls' Day 2020. Its mystery and proliferating ghost stories during this one year propel a narrative as rich, emotional, and profound as anything Louise Erdrich has written.
