Palestine Jun 29 2020 This rich and magisterial work traces Palestine's millennia-old heritage, uncovering cultures and societies of astounding depth and complexity that stretch back to the very beginnings of recorded history. Starting with the earliest references in Egyptian and Assyrian texts, Nur Masalha explores how Palestine and its Palestinian identity have evolved over thousands of years, from the Bronze Age to the present day. Drawing on a rich body of sources and the latest archaeological evidence, Masalha shows how Palestine's multicultural past has been distorted and mythologised by Biblical lore and the Israel-Palestinian conflict. In the process, Masalha reveals that the concept of Palestine, contrary to accepted belief, is not a modern invention or one constructed in opposition to Israel, but rooted firmly in ancient past. Palestine represents the authoritative account of the country's history.

The Forgotten Palestinians Aug 24 2022 For more than 60 years, hundreds of thousands of Palestinians have lived as Israeli citizens within the borders of the nation formed at the end of the 1948 conflict. Occupying a precarious middle ground between the Jewish citizens of Israel and the dispossessed Palestinians of the West Bank and the Gaza Strip, the Israeli Palestinians have developed an exceedingly complex relationship with the land they call home; however, in the innumerable discussions of the Israel-Palestine problem, their experiences are often overlooked and forgotten. In this book, historian Ilan Pappé examines how Israeli Palestinians have fared under Jewish rule and what their lives tell us about both Israel's attitude toward minorities and Palestinians' attitudes toward the Jewish state. Drawing upon significant archival and interview material, Pappé analyzes the Israeli state's policy towards its Palestinian citizens, finding discrimination in matters of housing, education, and civil rights. Rigorously researched yet highly readable, *The Forgotten Palestinians* brings a new and much-needed perspective to the Israel-Palestine debate.

The Iron Cage May 21 2022 At a time when a lasting peace between the Palestinians and the Israelis seems virtually unattainable, understanding the roots of their conflict is an essential step in restoring hope to the region. In *The Iron Cage*, Rashid Khalidi, one of the most respected historians and political observers of the Middle East, homes in on Palestinian politics and history. By drawing on a wealth of experience and scholarship, Khalidi provides a lucid context for the realities on the ground today, a context that has been, until now, notably lacking in our discourse. The story of the Palestinian search to establish a state begins in the mandate period immediately following the breakup of the Ottoman Empire, the era of British control, when fledgling Arab states were established by the colonial powers with assurances of eventual independence. Mandatory Palestine was a place of real promise, with unusually high literacy rates and a relatively advanced economy. But the British had already begun to construct an iron cage to hem in the Palestinians, and the Palestinian leadership made a series of errors that would eventually prove crippling to their dream of independence. The Palestinians' struggle intensified in the stretch before and after World War II, when colonial control of the region became increasingly unpopular, population shifts began with heavy Jewish immigration from Eastern Europe, and power began to devolve to the United States. In this crucial period, Palestinian leaders continued to run up against the walls of the ever-constricting iron cage. They proved unable to achieve their long-cherished goal of establishing an independent state—a critical failure that set a course for the decades that followed, right through the eras of the Palestinian Liberation Organization, the Palestinian Authority, and Hamas. Rashid Khalidi's engrossing narrative of this torturous history offers much-needed perspective for anyone concerned about peace in the Middle East.

The Israel/Palestine Question Jul 11 2021 This study assimilates diverse interpretations of the origins of the Middle East conflict with emphasis on the fight for Palestine and its religious and political roots. It draws largely on the historical revisionism of the last two decades.

The Forgotten Palestinians Mar 19 2022 Examines how Israeli Palestinians have fared under Jewish rule, revealing both Israel's attitude toward minorities and Palestinians' attitudes toward the Jewish state and analyzes the Israeli state's policy towards its Palestinian citizens.

The Ethnic Cleansing of Palestine Dec 28 2022 The book that is providing a storm of controversy, from 'Israel's bravest historian' (John Pilger) Renowned Israeli historian, Ilan Pappé's groundbreaking book revisits the formation of the State of Israel. Between 1947 and 1949, over 400 Palestinian villages were deliberately destroyed, civilians were massacred and around a million men, women, and children were expelled from their homes at gunpoint. Denied for almost six decades, had it happened today it could only have been called "ethnic cleansing". Decisively debunking the myth that the Palestinian population left of their own accord in the course of this war, Ilan Pappé offers impressive archival evidence to demonstrate that, from its very inception, a central plank in Israel's founding ideology was the forcible removal of the indigenous population. Indispensable for anyone interested in the current crisis in the Middle East.

The Rise and Fall of a Palestinian Dynasty Feb 18 2022 In this deeply researched political biography, Ilan Pappé traces the rise of the Husayni family of Jerusalem, who dominated Palestinian history from the early 1700s until the second half of the twentieth century. Viewing this sweeping saga through the prism of one family, the book sheds new light on crucial events—the invasion of Palestine by Napoleon, the decline of the Ottoman Empire, World War I, western colonialism, and the advent of Zionism—and provides an unforgettable picture of the Palestinian tragedy in its entirety. *The Rise and Fall of a Palestinian Dynasty* is the history of Palestinian politics before national movements and political parties: at the height of the Husaynis' influence, positions in Jerusalem and Palestine could only be obtained through the family's power base. In telling the story of one family, the book highlights the continuity between periods customarily divided into pre-modern and modern, pre-Zionist and Zionist, illuminating history as it was actually lived.

Palestine Mar 07 2021 Palestine: A Socialist Introduction systematically tackles a number of important aspects of the Palestinian struggle for liberation, contextualizing it in an increasingly polarized world and offering a socialist perspective on how full liberation can be won. Through an internationalist, anti-imperialist lens, this book explores the links between the struggle for freedom in the United States and that in Palestine, and beyond. It examines both the historical and contemporary trajectory of the Palestine solidarity movement in order to glean lessons for today's organizers, and compellingly lays out the argument that, in order to achieve justice in Palestine, the movement has to take up the question of socialism regionally and internationally. Contributors include: Jihad Abusalim, Shireen Akram-Boshar, Omar Barghouti, Nada Elia, Toufic Haddad, Remi Kanazi, Annie Levin, Mostafa Omar, Khury Petersen-Smith, and Daphna Thier.

Before the Next Bomb Drops Apr 27 2020 “A beautiful but urgent clarion call for freedom, justice, and resistance in every pocket of the world, from occupied Palestine to gentrified Brooklyn” (Marc Lamont Hill, academic and activist). we are the boat / returning to dock / we are the footprints / on the northern trail / we are the iron / coloring the soil / we cannot / be erased —from “Refugee” Remi Kanazi’s poetry presents an unflinching look at the lives of Palestinians under occupation and as refugees scattered across the globe. He captures the Palestinian people’s stubborn refusal to be erased, gives voice to the ongoing struggle for liberation, and explores the meaning of international solidarity. In this latest collection, Kanazi expands his focus outside the sphere of Palestine and presents pieces examining racism in America, police brutality, US militarism at home and wars abroad, conflict voyeurism, Islamophobia, and a range of other issues. “His rhymes and rhythms, filled with sharp wit, irony and deep empathy, are a great joy to read even as they tackle some of the most urgent political struggles of our day.” —Ali Abunimah, author of *The Battle for Justice in Palestine*

Expulsion of the Palestinians Jun 10 2021 In this meticulous work, based almost entirely on Hebrew archival material, Nur Masalha examines the Zionist concept of "transfer," or the expulsion of the Palestinian population to neighboring Arab lands. Masalha establishes the extent to which "transfer" was embraced by the highest levels of Zionist leadership, including virtually all the Founding Fathers of the Israeli state.

Under the Cover of War Oct 02 2020 "Under the Cover of War presents a critical examination of the last six months of the British Palestine mandate, November 1947 to mid-May 1948. Unpublished military and diplomatic sources and new, original refugee interviews support the Palestinians account of their Nakba (catastrophe)"--Provided by publisher.

Gaza in Crisis May 09 2021 From the targeting of schools and hospitals, to the indiscriminate use of white phosphorus, Israel's conduct in 'Operation Cast Lead' has rattled even some of its most strident supporters. In this book, Noam Chomsky and Ilan Pappé survey the fallout from that devastation, and place the massacre in Gaza in the context of Israel's long-standing war against the Palestinians. *Gaza in Crisis* is a rigorous, historically informed and much-needed analysis of the situation and will be welcomed by all those eager for Chomsky's insights into yet another political catastrophe.

The Biggest Prison on Earth Sep 25 2022 Shortlisted for the Palestine Book Awards 2017 A powerful, groundbreaking history of the Occupied Territories from one of Israel's most influential historians From the author of the bestselling study of the 1948 War of Independence comes an incisive look at the Occupied Territories, picking up the story where *The Ethnic Cleansing of Palestine* left off. In this comprehensive exploration of one of the world’s most prolonged and tragic conflicts, Pappé uses recently declassified archival material to analyse the motivations and strategies of the generals and politicians - and the decision-making process itself - that laid the foundation of the occupation. From a survey of the legal and bureaucratic infrastructures that were put in place to control the population of over one million Palestinians, to the security mechanisms that vigorously enforced that control, Pappé paints a picture of what is to all intents and purposes the world’s largest ‘open prison’.

Ireland and Empire Sep 01 2020 Many analyses of Ireland's past and present are couched in colonial terms. For some, it is the only framework for understanding Ireland. Others reject the label. This study evaluates and analyzes the situation.

Treacherous Alliance Feb 06 2021 This award-winning study traces the shifting relations between Israel, Iran, and the U.S. since 1948—including secret alliances and treacherous acts. Vitriolic exchanges between the leaders of Iran and Israel are a disturbingly common feature of the news cycle. But the real roots of their enmity mystify Washington policymakers, leaving no promising pathways to stability. In *Treacherous Alliance*, U.S. foreign policy expert Trita Parsi untangles the complex and often duplicitous relationship among Israel, Iran, and the United States from 1948 to the present. In the process, he reveals shocking details of unsavory political maneuverings that have undermined Middle Eastern peace and disrupted U.S. foreign policy initiatives in the region. Parsi draws on his unique access to senior American, Iranian, and Israeli decision makers to present behind-the-scenes revelations that will surprise even the most knowledgeable readers: Iran’s prime minister asks Israel to assassinate Khomeini; Israel reaches out to Saddam Hussein after the Gulf War; the United States foils Iran’s plan to withdraw support from Hamas and Hezbollah; and more. *Treacherous Alliance* not only revises our understanding of the recent past, it also spells out a course for the future. An Arthur Ross Book Award Silver Medal Winner A Choice Magazine Outstanding Academic Title

The Book of Disappearance Sep 13 2021 What if all the Palestinians in Israel simply disappeared one day? What would happen next? How would Israelis react? These unsettling questions are posed in Azem’s powerfully imaginative novel. Set in contemporary Tel Aviv forty eight hours after Israelis discover all their Palestinian neighbors have vanished, the story unfolds through alternating narrators, Alaa, a young Palestinian man who converses with his dead grandmother in the journal he left behind when he disappeared, and his Jewish neighbor, Ariel, a journalist struggling to understand the traumatic event. Through these perspectives, the novel stages a confrontation between two memories. Ariel is a liberal Zionist who is critical of the military occupation of the West Bank and Gaza, but nevertheless believes in Israel’s project and its national myth. Alaa is haunted by his grandmother’s memories of being displaced from Jaffa and becoming a refugee in her homeland. Ariel’s search for clues to the secret of the collective disappearance and his reaction to it intimately reveal the fissures at the heart of the Palestinian question. *The Book of Disappearance* grapples with both the memory of loss and the loss of memory for the Palestinians. Presenting a narrative that is often marginalized, Antoon’s translation of the critically acclaimed Arabic novel invites English readers into the complex lives of Palestinians living in Israel.

A History of Modern Palestine Jan 05 2021 Now in an updated and expanded third edition, this is a widely acclaimed history of Palestine centred on the experiences of everyday Palestinians.

Summary of Ilan Pappé's The Ethnic Cleansing of Palestine Oct 26 2022 Please note: This is a companion version & not the original book. Sample Book Insight: #1 I would like to thank my friends and family for their support and patience while I worked on this book. It was not dedicated to anyone, but it is written first and foremost for the Palestinian victims of the 1948 ethnic cleansing.

Neither Settler nor Native Sep 20 2019 Shortlisted for the British Academy Book Prize for Global Cultural Understanding Making the radical argument that the nation-state was born of colonialism, this book calls us to rethink political violence and reimagine political community beyond majorities and minorities. In this genealogy of political modernity, Mahmood Mamdani argues that the nation-state and the colonial state created each other. In case after case around the globe—from the New World to South Africa, Israel to Germany to Sudan—the colonial state and the nation-state have been mutually constructed through the politicization of a religious or ethnic majority at the expense of an equally manufactured minority. The model emerged in North America, where genocide and internment on reservations created both a permanent native underclass and the physical and ideological spaces in which new immigrant identities crystallized as a settler nation. In Europe, this template would be used by the Nazis to address the Jewish Question, and after the fall of the Third Reich, by the Allies to redraw the boundaries of Eastern Europe’s nation-states, cleansing them of their minorities. After Nuremberg the template was used to preserve the idea of the Jews as a separate nation. By establishing Israel through the minoritization of Palestinian Arabs, Zionist settlers followed the North American example. The result has been another cycle of violence. *Neither Settler nor Native* offers a vision for arresting this historical process. Mamdani rejects the “criminal” solution attempted at Nuremberg, which held individual perpetrators responsible without questioning Nazism as a political project and thus the violence of the nation-state itself. Instead, political violence demands political solutions: not criminal justice for perpetrators but a rethinking of the political community for all survivors—victims, perpetrators, bystanders, beneficiaries—based on common residence and the commitment to build a common future without the permanent political identities of settler and native. Mamdani points to the anti-apartheid struggle in South Africa as an unfinished project, seeking a state without a nation.

The Politics of Denial Jan 25 2020 The largest and most enduring refugee problem in the world

Disappearing Palestine Nov 03 2020 In this insightful and authoritative new book, leading journalist Jonathan Cook examines the many different guises in which these experiments on the Palestinians are being carried out. Accessible and comprehensive, this is a powerful analysis of one of the most enduring and entrenched conflicts in contemporary world politics.

Palestinian Walks Dec 16 2021 Over two decades of turmoil and change in the Middle East, steered via the history-soaked landscape of Palestine. This new edition includes a previously unpublished epigraph in the form of a walk. When Raja Shehadeh first started hill walking in Palestine, in the late 1970s, he was not aware that he was travelling through a vanishing landscape. These hills would have seemed familiar to Christ, until the day concrete was poured over the flora and irreversible changes were brought about by those who claim a superior love of the land. Six walks span a period of twenty-six years, in the hills around Ramallah, in the Jerusalem wilderness and through the ravines by the Dead Sea. Each walk takes place at a different stage of Palestinian history since 1982, the first in the empty pristine hills and the last amongst the settlements and the wall. The reader senses the changing political atmosphere as well as the physical transformation of the landscape. By recording how the land felt and looked before these calamities, Raja Shehadeh attempts to preserve, at least in words, the Palestinian natural treasures that many Palestinians will never know.

The Hundred Years' War on Palestine Oct 14 2021 A landmark history of one hundred years of war waged against the Palestinians from the foremost US historian of the Middle East, told through pivotal events and family history In 1899, Yusuf Diya al-Khalidi, mayor of Jerusalem, alarmed by the Zionist call to create a Jewish national home in Palestine, wrote a letter aimed at Theodore Herzl: the country had an indigenous people who would not easily accept their own displacement. He warned of the perils ahead, ending his note, "in the name of God, let Palestine be left alone." Thus Rashid Khalidi, al-Khalidi's great-great-nephew, begins this sweeping history, the first general account of the conflict told from an explicitly Palestinian perspective. Drawing on a wealth of untapped archival materials and the reports of generations of family members—mayors, judges, scholars, diplomats, and journalists—The Hundred Years' War on Palestine upends accepted interpretations of the conflict, which tend, at best, to describe a tragic clash between two peoples with claims to the same territory. Instead, Khalidi traces a hundred years of colonial war on the Palestinians, waged first by the Zionist movement and then Israel, but backed by Britain and the United States, the great powers of the age. He highlights the key episodes in this colonial campaign, from the 1917 Balfour Declaration to the destruction of Palestine in 1948, from Israel's 1982 invasion of Lebanon to the endless and futile peace process. Original, authoritative, and important, The Hundred Years' War on Palestine is not a chronicle of victimization, nor does it whitewash the mistakes of Palestinian leaders or deny the emergence of national movements on both sides. In reevaluating the forces arrayed against the Palestinians, it offers an illuminating new view of a conflict that continues to this day.

Nakba Dec 04 2020 For outside observers, current events in Israel, Gaza, and the West Bank are seldom related to the collective memory of ordinary Palestinians. But for Palestinians themselves, the iniquities of the present are experienced as a continuous replay of the injustice of the past. By focusing on memories of the Nakba or "catastrophe" of 1948, in which hundreds of thousands of Palestinians were dispossessed to create the state of Israel, the contributors to this volume illuminate the contemporary Palestinian experience and clarify the moral claims they make for justice and redress. The book's essays consider the ways in which Palestinians have remembered and organized themselves around the Nakba, a central trauma that continues to be refracted through Palestinian personal and collective memory. Analyzing oral histories and written narratives, poetry and cinema, personal testimony and courtroom evidence, the authors show how the continuing experience of violence, displacement, and occupation have transformed the pre-Nakba past and the land of Palestine into symbols of what has been and continues to be lost. Nakba brings to light the different ways in which Palestinians experienced and retain in memory the events of 1948. It is the first book to examine in detail how memories of Palestine's cataclysmic past are shaped by differences of class, gender, generation, and geographical location. In exploring the power of the past, the authors show the urgency of the question of memory for understanding the contested history of the present. Contributors: Lila Abu Lughod, Columbia University; Diana Keown Allan, Harvard University; Haim Bresheeth, University of East London; Rochelle Davis, Georgetown University; Samera Esmeir, University of California, Berkeley; Isabelle Humphries, University of Surrey; Lena Jayyusi, Zayed University; Laleh Khalili, SOAS, University of London; Omar Al-Qattan, filmmaker; Ahmad H. Sa'di, Ben-Gurion University; Rosemary Sayigh, Lebanon-based anthropologist; Susan Slyomovics, University of California, Los Angeles

Waste Siege Aug 20 2019 Waste Siege offers an analysis unusual in the study of Palestine: it depicts the environmental, infrastructural, and aesthetic context in which Palestinians are obliged to forge their lives. To speak of waste siege is to describe a series of conditions, from smelling wastes to negotiating military infrastructures, from biopolitical forms of colonial rule to experiences of governmental abandonment, from obvious targets of resistance to confusion over responsibility for the burdensome objects of daily life. Within this rubble, debris, and infrastructural fallout, West Bank Palestinians create a life under settler colonial rule. Sophia Stamatopoulou-Robbins focuses on waste as an experience of everyday life that is continuous with, but not a result only of, occupation. Tracing Palestinians' own experiences of wastes over the past decade, she considers how multiple authorities governing the West Bank—including municipalities, the Palestinian Authority, international aid organizations, NGOs, and Israel—rule by waste siege, whether intentionally or not. Her work challenges both common formulations of waste as "matter out of place" and as the ontological opposite of the environment, by suggesting instead that waste siege be understood as an ecology of "matter with no place to go." Waste siege thus not only describes a stateless Palestine, but also becomes a metaphor for our besieged planet.

Palestine, Israel and the U.S. Empire Aug 12 2021 A sharp analysis of the struggle for Palestine—from the division of the Middle East by Western powers and the Zionist settler movement, to the founding of Israel and its role as a watchdog for US interests, to present day conflicts and the prospects for a just resolution. The narrative is firmly rooted in the politics of Palestinian liberation. Here is a necessary contribution to the heroic efforts of the Palestinian people to achieve justice in the face of seemingly insurmountable odds. This book contains a complete index and a timeline of developments in the history of Palestine.

The Case for Sanctions Against Israel Nov 22 2019 In July 2011, Israel passed legislation outlawing the public support of boycott activities against the state, corporations, and settlements, adding a crackdown on free speech to its continuing blockade of Gaza and the expansion of illegal settlements. Nonetheless, the campaign for boycott, divestment, and sanctions (BDS) continues to grow in strength within Israel and Palestine, as well as in Europe and the US. This essential intervention considers all sides of the movement—including detailed comparisons with the South African experience—and contains contributions from both sides of the separation wall, along with a stellar list of international commentators. Contributors: Merav Amir and Dalit Baum, Ra'anaan Alexandrowicz, Hind Awwad, Mustafa Barghouti, Omar Barghouti, Joel Beinin, John Berger, Angela Davis, Nada Elia, Marc Ellis, Noura Erakat, Ran Greenstein, Neve Gordon, Ronald Kasrils, Jamal Khader, Naomi Klein, Mark LeVine, Ken Loach, David Lloyd and Laura Pulido, Haneen Maikey, Ilan Pappé, Jonathan Pollak, Lisa Taraki, Rebecca Vilkomerson, Michael Warschawski, Slavoj Žižek.

The Ethnic Cleansing of Palestine Nov 27 2022 Documents the "Nakbah" ethnic cleansing practices of 1948 Palestine, linking them directly to the Palestine-Israeli conflict and Middle East instability, in an account that attempts to address why the events of 1948 are still denied in today's world.

On Palestine Apr 20 2022 The sequel to the acclaimed Gaza in Crisis from world-famous political analyst Noam Chomsky and Middle East historian Ilan Pappé. Operation Protective Edge, Israel's 2014 assault on Gaza, left thousands of Palestinians dead and cleared the way for another Israeli land grab. The need to stand in solidarity with Palestinians has never been greater. Ilan Pappé and Noam Chomsky, two leading voices in the struggle to liberate Palestine, discuss the road ahead for Palestinians and how the international community can pressure Israel to end its human rights abuses against the people of Palestine. Praise for Gaza in Crisis by Noam Chomsky and Ilan Pappé "This sober and unflinching analysis should be read and reckoned with by anyone concerned with practicable change in the long-suffering region." —Publishers Weekly "Both authors perform fiercely accurate deconstructions of official rhetoric." —The Guardian Praise for Noam Chomsky . . . "Chomsky is a global phenomenon . . . perhaps the most widely read American voice on foreign policy on the planet." —The New York Times Book Review "One of the radical heroes of our age . . . a towering intellect . . . powerful, always provocative." —The Guardian . . . and Ilan Pappé "Ilan Pappé is Israel's bravest, most principled, most incisive historian." —John Pilger, journalist, writer, and filmmaker "Along with the late Edward Said, Ilan Pappé is the most eloquent writer of Palestinian history." —New Statesman

Out of the Frame Jan 17 2022 Even before he wrote his bestselling book *The Ethnic Cleansing of Palestine*, historian Ilan Pappé was a controversial figure in Israel. In *Out of the Frame*, he gives a full account of his

break with conventional Israeli scholarship and its consequences. Growing up in a conventional Israeli community influenced by the utopian visions of Theodor Herzl, Pappé was barely aware of the Nakbah in his high school years. Here he traces his journey of discovery from the whispers of Palestinian classmates to his realisation that the 'enemy's' narrative of the events of 1948 was correct. After producing his PhD at Oxford university based on recently declassified documents in the early 1980s he returned to Palestine determined to protect the memory of the Nakbah and struggle for the rectification of its evils. For the first time he gives the details of the formidable opposition he faced in Israel, including death threats fed by the media, denunciations by the Knesset and calls for him to be sacked from his post at Haifa university. This revealing work, written with dignity and humour, highlights Israel's difficulty in facing up to its past and forging a peaceful, inclusive future in Palestine.

Justice for Some May 29 2020 Justice in the Question of Palestine is often framed as a question of law. Yet none of the Israel-Palestinian conflict's most vexing challenges have been resolved by judicial intervention. Occupation law has failed to stem Israel's settlement enterprise. Laws of war have permitted killing and destruction during Israel's military offensives in the Gaza Strip. The Oslo Accord's two-state solution is now dead letter. Justice for Some offers a new approach to understanding the Palestinian struggle for freedom, told through the power and control of international law. Focusing on key junctures—from the Balfour Declaration in 1917 to present-day wars in Gaza—Noura Erakat shows how the strategic deployment of law has shaped current conditions. Over the past century, the law has done more to advance Israel's interests than the Palestinians'. But, Erakat argues, this outcome was never inevitable. Law is politics, and its meaning and application depend on the political intervention of states and people alike. Within the law, change is possible. International law can serve the cause of freedom when it is mobilized in support of a political movement. Presenting the promise and risk of international law, Justice for Some calls for renewed action and attention to the Question of Palestine.

A History of Modern Palestine Jun 22 2022 An update of the history of Palestine since the 1800s, which includes recent dramatic events.

Ten Myths About Israel Jul 23 2022 The myths—and reality—behind the state of Israel In this groundbreaking book, published on the fiftieth anniversary of the Occupation, the outspoken and radical Israeli historian Ilan Pappé examines the most contested ideas concerning the origins and identity of the contemporary state of Israel. The “ten myths” that Pappé explores—repeated endlessly in the media, enforced by the military, accepted without question by the world’s governments—reinforce the regional status quo. He explores the claim that Palestine was an empty land at the time of the Balfour Declaration, as well as the formation of Zionism and its role in the early decades of nation building. He asks whether the Palestinians voluntarily left their homeland in 1948, and whether June 1967 was a war of “no choice.” Turning to the myths surrounding the failures of the Camp David Accords and the official reasons for the attacks on Gaza, Pappé explains why the two-state solution is no longer viable.

All that Remains Apr 08 2021

The Idea of Israel Jul 31 2020 Since its foundation in 1948, Israel has drawn on Zionism, the movement behind its creation, to provide a sense of self and political direction. In this groundbreaking new work, Ilan Pappé looks at the continued role of Zionist ideology. The Idea of Israel considers the way Zionism operates outside of the government and military in areas such as the country’s education system, media, and cinema, and the uses that are made of the Holocaust in supporting the state’s ideological structure. In particular, Pappé examines the way successive generations of historians have framed the 1948 conflict as a liberation campaign, creating a foundation myth that went unquestioned in Israeli society until the 1990s. Pappé himself was part of the post-Zionist movement that arose then. He was attacked and received death threats as he exposed the truth about how Palestinians have been treated and the gruesome structure that links the production of knowledge to the exercise of power. The Idea of Israel is a powerful and urgent intervention in the war of ideas concerning the past, and the future, of the Palestinian-Israeli conflict.

In Search of Fatima Oct 22 2019 No Marketing Blurb

Global Food Systems, Diets, and Nutrition Feb 24 2020 Ensuring optimal diets and nutrition for the global population is a grand challenge fraught with many contentious issues. To achieve food security for all and protect health, we need functional, equitable, and sustainable food systems. Food systems are highly complex networks of individuals and institutions that depend on governance and policy leadership. This book explains how interconnected food systems and policies affect diets and nutrition in high-, middle-, and low-income countries. In tandem with food policy, food systems determine the availability, affordability, and nutritional quality of the food supply, which influences the diets that people are willing and able to consume. Readers will become familiar with both domestic and international food policy processes and actors, and they will be able to critically analyze and debate how policy and science affect diet and nutrition outcomes.

Israel/Palestine Nov 15 2021 In Israel/Palestine, Reinhart traces the development of the Security Barrier and Israel’s new doctrine of “disengagement,” launched in response to a looming Palestinian-majority population. Examining the official record of recent diplomacy, including United States-brokered accords and talks at Camp David, Oslo, and Taba, Reinhart explores the fundamental power imbalances between the negotiating parties and identifies Israel’s strategy of creating facts on the ground to define and complicate the terms of any future settlement. In this indispensable primer, Reinhart’s searing insight illuminates the current conflict and suggests a path toward change.

My Promised Land Dec 24 2019 NEW YORK TIMES BESTSELLER • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE NEW YORK TIMES BOOK REVIEW AND THE ECONOMIST Winner of the Natan Book Award, the National Jewish Book Award, and the Anisfield-Wolf Book Award An authoritative and deeply personal narrative history of the State of Israel, by one of the most influential journalists writing about the Middle East today Not since Thomas L. Friedman’s groundbreaking *From Beirut to Jerusalem* has a book captured the essence and the beating heart of the Middle East as keenly and dynamically as *My Promised Land*. Facing unprecedented internal and external pressures, Israel today is at a moment of existential crisis. Ari Shavit draws on interviews, historical documents, private diaries, and letters, as well as his own family’s story, illuminating the pivotal moments of the Zionist century to tell a riveting narrative that is larger than the sum of its parts: both personal and national, both deeply human and of profound historical dimension. We meet Shavit’s great-grandfather, a British Zionist who in 1897 visited the Holy Land on a Thomas Cook tour and understood that it was the way of the future for his people; the idealist young farmer who bought land from his Arab neighbor in the 1920s to grow the Jaffa oranges that would create Palestine’s booming economy; the visionary youth group leader who, in the 1940s, transformed Masada from the neglected ruins of an extremist sect into a powerful symbol for Zionism; the Palestinian who as a young man in 1948 was driven with his family from his home during the expulsion from Lydda; the immigrant orphans of Europe’s Holocaust, who took on menial work and focused on raising their children to become the leaders of the new state; the pragmatic engineer who was instrumental in developing Israel’s nuclear program in the 1960s, in the only interview he ever gave; the zealous religious Zionists who started the settler movement in the 1970s; the dot-com entrepreneurs and young men and women behind Tel-Aviv’s booming club scene; and today’s architects of Israel’s foreign policy with Iran, whose nuclear threat looms ominously over the tiny country. As it examines the complexities and contradictions of the Israeli condition, *My Promised Land* asks difficult but important questions: Why did Israel come to be? How did it come to be? Can Israel survive? Culminating with an analysis of the issues and threats that Israel is currently facing, *My Promised Land* uses the defining events of the past to shed new light on the present. The result is a landmark portrait of a small, vibrant country living on the edge, whose identity and presence play a crucial role in today’s global political landscape. Praise for *My Promised Land* “This book will sweep you up in its narrative force and not let go of you until it is done. [Shavit’s] accomplishment is so unlikely, so total . . . that it makes you believe anything is possible, even, God help us, peace in the Middle East.”—Simon Schama, *Financial Times* “[A] must-read book.”—Thomas L. Friedman, *The New York Times* “Important and powerful . . . the least tendentious book about Israel I have ever read.”—Leon Wieseltier, *The New York Times Book Review* “Spellbinding . . . Shavit’s prophetic voice carries lessons that all sides need to hear.”—*The Economist* “One of the most nuanced and challenging books written on Israel in

years.”—The Wall Street Journal

The Birth of the Palestinian Refugee Problem, 1947-1949 Mar 27 2020 This book is the first full-length study of the birth of the Palestinian refugee problem. Based on recently declassified Israeli, British and American state and party political papers and on hitherto untapped private papers, it traces the stages of the 1947-9 exodus against the backdrop of the first Arab-Israeli war and analyses the varied causes of the flight. The Jewish and Arab decision-making involved, on national and local levels, military and political, is described and explained, as is the crystallisation of Israel's decision to bar a refugee repatriation. The subsequent fate of the abandoned Arab villages, lands and urban neighbourhoods is examined. The study looks at the international context of the war and the exodus, and describes the political battle over the refugees' fate, which effectively ended with the deadlock at Lausanne in summer 1949. Throughout the book attempts to describe what happened rather than what successive generations of Israeli and Arab propagandists have said happened, and to explain the motives of the protagonists.
