The first word from the lunar surface: Houston. Houston, Space City USA is a visual celebration of the city's historic ties to the US human space program. When President Kennedy declared, "We choose to go to the moon in this decade and do the other things, not because they are easy, but because they are hard," he did so from the campus of Rice University. More than half a century later, Houston continues to serve as the nerve center of the American human space program. Author and photographer Ray Viator, a longtime Houstonian, has lovingly captured the spirit of a city's devotion to space exploration from then to now. Using striking photographs of the full moon as a visual motif of Houston's connection to spaceflight, Viator also weaves together historic images to show how former cow pastures transformed into mission control. Some connections are obvious—the Houston Astros or the Houston Rockets. Others are hidden in plain sight, like the arm patches on the uniform of every Houston police officer that read, "Space City U.S.A." Viator's lens captures this and more. Houston, Space City USA not only marks the important milestone of the first lunar landing, but it also helps readers discover and rediscover a city's constellation of connections to one of humankind's greatest achievements. The author's proceeds from the sale of this book will benefit Houston Public Media. The closest students can get to the exam without actually taking it! 500 USMLE-style questions and answers referenced to core textbooks and journal articles Complete explanations discuss right and wrong answer options All questions are reviewed by students who have recently passed the exams REA's TExES

Features of Texas Real Estate License Exam Prep (TX-RELEP): - National Principles & Law Key Point Review (60 pages) - Real Estate Math Key Formula Review & Practice (17 pages) - Texas-Specific Laws and Practices (43 pages) - National Practice Tests (500 questions) - Texas Practice Tests (125 questions) - Texas Sample Exam (100 questions) We know the real estate licensing exam can be tough, and very nerve-wracking to prepare for. That's why we created the Texas Real Estate License Exam Prep (TX-RELEP) the way we did. Since we have been managing real estate schools and developing curriculum for forty years, we know how all this works – or fails to work. TX-RELEP is comprehensive in that it contains both key content review and testing practice. And the text review is Texas-specific – not just simplistic national content, but terse, relevant and accurate Texas laws and regulations presented as a well-organized set of state 'key point reviews' ideal for pre-test memorization. But let's not dismiss the importance of the national content either. TX-RELEP's national key point reviews are a succinct compression of tested national principles and practices that comprise the national portion of state license exams from coast to coast. Our content is drawn from our own national textbook, Principles of Real Estate Practice – one of the most widely used principles textbooks in the country. Finally, our national content, as well as our question selection, is further tailored to the state testing outline promulgated by Pearson Vue for Texas. Thus the breadth and depth of the law reviews and test questions reflect the topic emphasis of your state's testing service and your Texas license exam. A word about the test questions... TX-RELEP's testing practice section consists of ten national practice tests, six state practice tests, and one state exam sample test. The practice tests are roughly 50 questions in length and the sample test is 100 questions. The test questions are designed to cover the content covered by the law reviews – which reinforces your learning of the total body of information tested by your Texas exam. The questions are direct, to the point, and designed to test your understanding. When you have completed a given test, you can check your answers against the answer key in the appendix. You may also note that each question's answer is accompanied by a brief explanation, or "rationale" to further reinforce your understanding. In the end, as you know, it's all up to you. Unlike other publications, we are not going to tell you that using this book will guarantee that you pass your state exam. It still takes hard work and study to pass. But we have done our best here to get you ready. Following that, the most we can do is wish you the best of success in taking and passing your Texas real estate exam. So good luck!! For Texas students looking for a Principles I & II prelicense textbook, Principles of Real Estate Practice in Texas is now available Perfect for preparing for the RHIA and RHIT exams! the Comprehensive Review Guide for Health Information serves as a personal tutor for HIM students to review the major learning competencies that will be tested on the exams. the workbook section, divided by knowledge clusters, contains short answer, fill in the blank, and matching questions to assess the students' understanding of the competency after using the comprehensive review book section and listening to audio recordings.
