Third Series WALNECK'S CLASSIC CYCLE TRADER, OCTOBER 2001 Boys' Life American Woodworker WALNECK'S CLASSIC CYCLE TRADER, APRIL 2004 Popular Science Motor Age How to Build a Harley-Davidson Torque Monster Sport Aviation*

*Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better. Many people modify their Harley-Davidson engines—and find the results disappointing. What they might not know—and what this book teaches—is that emphasizing horsepower over torque, the usual approach, makes for a difficult ride. Author Bill Rook has spent decades perfecting the art of building torque-monster V-twin Harley engines. Here he brings that experience to bear, guiding motorcycle enthusiasts through the modifications that make a bike not just fast but comfortable to ride. With clear, step-by-step instructions, his book shows readers how to get high performance out of their Harleys—and enjoy them, too. Boys' Life is the official youth magazine for the Boy Scouts of America. Published since 1911, it contains a proven mix of news, nature, sports, history, fiction, science, comics, and Scouting. This is the 11th in the series of directories whose overall aim is to make sense of the myriad files in the marketplace by listing databases completely, and grouping them logically. The title, Company Information, implies a somewhat narrower focus than the directory offers, as the five sections ac American Woodworker magazine, A New Track Media publication, has been the premier publication for woodworkers all across America for 25 years. We are committed to providing woodworkers like you with the most accurate and up-to-date plans and information -- including new ideas, product and tool reviews, workshop tips and much, much more.*
