**Cowper's Milton [the poetical works, with life, notes and tr. by W. Cowper. Ed. by W.  
Hayley].** Jun 27 2022

**Kielmeyer and the Organic World** May 03 2020 Carl Friedrich Kielmeyer (1765-1844) was the 'father of philosophy of nature' owing to his profound influence on German Idealist and Romantic Naturphilosophie. With the recent growth of interest in Idealist and Romantic philosophy of nature in the UK and abroad, the importance of Kielmeyer's work is being increasingly recognised and special attention is being paid to his influence on biology's development as a distinct discipline at the end of the eighteenth century. In this exciting new book, Lydia Azadpour and Daniel Whistler present the first ever English translations of key texts by Kielmeyer, along with contextual and interpretative essays by leading international scholars, who are experts on the philosophy of nature and the formation of the life sciences in the late eighteenth century. The topics they cover include: the laws of nature, the concept of force, the meaning of 'organism', the logic of recapitulation, Kielmeyer and ecology, sexual differentiation in animal life and Kielmeyer's relationship to Kant, Schelling and Hegel. In doing so, they provide a comprehensive English reference to Kielmeyer's historical and contemporary significance.

*Dissolution* Jun 03 2020 FROM WESTERN WORD-SLINGER AND ANTHROPOLOGIST W. MICHAEL GEAR, COMES AN ENTIRELY NEW TYPE OF WESTERN - A CONTEMPORARY APOCALYPTIC WESTERN. For anthropology graduate student Sam Delgado, headed to the wilds of Wyoming, this is his last chance to save his graduate career. He and his urban classmates see this as the adventure of a lifetime: They are going to horse-pack in the wilderness to map and test a high-altitude archaeological site. Until a cyber attack collapses the American banking system, and an already fractured nation descends into anarchy and chaos. All credit frozen, Sam and his archaeological field school is trapped in their high-altitude camp. With return to the East impossible, Sam, the woman he has come to love, and the rest of the students must rely on hard-bitten Wyoming ranchers for their very survival. Guided only by an illusive Shoshone spirit helper, Sam will discover the meaning of self-sacrifice. Even at the cost of his life. Haunting, provoking, frightening and prescient - in the end, all that stands between civilization and barbarism is one young man's courage and belief in himself. "Gear is a master when it comes to vividly described settings: you can smell the smoke, hear the wind in the trees, and feel the cold."

Luke Barnicott, by W. Howitt, followed by The castle east of the sun (from the Danish) and Holidays at Barenburg castle (by O. Wildemuth). Oct 08 2020
