Here is the Lost Heritage of the Irish-American Banjo!The Irish-style Tenor banjo has become immensely popular of late, yet

the roots of Irish influence on American banjo music extends right back to the 1840s, when the legendary Joel Sweeney picked up a gourd banjo from Black American banjo players, and proceeded to perform 'jigs, reels and breakdowns'. Other Irish-Americans played a leading role in the development and popularity of the banjo in America, and Rob MacKillop has collected 27 of their finest pieces in this collection, the first of its kind. TAB for 5-string banjo as well as Tenor Banjo. the Tenor Banjo arrangements are in two tunings: GDAE and CGDA. Can be played with either a flat pick or fingerstyle. The CD recording contains brilliant performances of all 27 pieces by Rob MacKillop, a leading performer of historical banjo music. Rob performs fingerstyle, with the flesh of his fingertips on gut strings, on a period-appropriate banjo, in the old American tuning. This CD is a treasure in itself. Tunes included: St Patrick's Day; Rocky Road to Dublin; Savourneen Deelish; McCormick Party Reel, Sheridan's Hornpipe, Connaught Man's Rambles, and many others. Long a symbol of American culture, the banjo actually originated in Africa before European-Americans adopted it. Karen Linn shows how the banjo--despite design innovations and several modernizing agendas--has failed to escape its image as a "half-barbaric" instrument symbolic of antimodernism and sentimentalism. Caught in the morass of American racial attitudes and often used to express ambivalence toward modern industrial society, the banjo stood in opposition to the "official" values of rationalism, modernism, and belief in the beneficence of material progress. Linn uses popular literature, visual arts, advertisements, film, performance practices, instrument construction and decoration, and song lyrics to illustrate how

notions about the banjo have changed. Linn also traces the instrument from its African origins through the 1980s, alternating between themes of urban modernization and rural nostalgia. She examines the banjo fad of bourgeois Northerners during the late nineteenth century; the African-American banjo tradition and the commercially popular cultural image of the southern black banjo player; the banjo's use in ragtime and early jazz; and the image of the white Southerner and mountaineer as banjo player. (Reference). While Gibson produced literally thousands of banjos prior to WWII, only a handful were made in the now most desirable configuration: the Original Flathead Five-String Mastertone. Since Earl Scruggs helped to make them the most sought-after banjos in the world over 60 years ago, these instruments have amassed a cult-like following. These particular banjos featured a completely innovative design when the Gibson Company introduced them around 1930. They have since become the benchmark in design, sound quality, and just sheer power among banjo players. They have therefore also become the inspiration for nearly every successful 5-string banjo that has been manufactured for the past five decades. Like Martin Dreadnaught and Fender Stratocaster guitars, the Gibson Mastertone Banjo has achieved an exalted status: It is appreciated far beyond its utilitarian purpose as a musical instrument, and considered a truly original American art form. The Mastertone design and style are instantly recognizable by musicians and music lovers around the world, even if imitated by other manufacturers. Of the 130 or so Original Flathead Five-String Mastertones known to exist, 19 of the absolute best are featured here. The Scruggs, Reno, Jenkins, Crowe,

Osborne, Huber and Mills banjos are shown in all of their glory, with details of their known histories and provenances, as well as never-before-seen photos, bills of sale, factory shipping ledgers, and other ephemera relating to these rare and highly desirable instruments. Bach's cello suites are among the most famous solo instrumental works of all time. The cello and the tenor banjo share the same tuning, and banjo players might be surprised at how well this great music fits on the fretboard. Rob MacKillop has provided tablature for the first three suites. Here is a chance for tenor banjo players to explore Bach on their instrument, which could

be tuned to either regular, CGDA, or Irish tuning, GDAE. Accompanying audio is included, using three different tenor banjos: a regular tenor (Deeringr Eagle II), a gourd tenor (Jaybirdr Banjos), and a cello banjo (Gold Toner) which has the same low pitch as the cello. A `suite' is a collection of dances of varying speeds and time signatures, conceived to be performed as a whole, and preceded by a prelude. Bach's Prelude to the 1st Suite is magnificent and justly famous. The Bourree from the 3rd Suite is also very popular. Enjoy playing Bach on the Tenor Banjo!
