Some Places More Than Others Mar 01 2020 From Newbery Honor- and Coretta Scott King Author Award-winning, New York Times bestselling author Renée Watson comes a heartwarming and inspiring novel for middle schoolers about finding deep roots and exploring the past, the present, and the places that make us who we are. All Amara wants for her birthday is to visit her father's family in New York City--Harlem, to be exact. She can't wait to finally meet her Grandpa Earl and cousins in person, and to stay in the brownstone where her father grew up. Maybe this will help her understand her family--and herself--in new way. But New York City is not exactly what Amara thought it would be. It's crowded, with confusing subways, suffocating sidewalks, and her father is too busy with work to spend time with her and too angry to spend time with Grandpa Earl. As she explores, asks questions, and learns more and more about Harlem and about her father and his family history, she realizes how, in some ways more than others, she connects with him, her home, and her family. A Measure of Success Aug 06 2020 Simple in concept, far-reaching in implementation, Curriculum-Based Measurement (CBM) was developed in the 1980s as an efficient way to assess the progress of struggling students, including those with disabilities. Today, there are few areas of special education policy and practice that have not been influenced by CBM progress monitoring. The impact of CBM is reflected in recent education reforms that emphasize improvements in assessment and data-based decision making. Gathering an international group of leading researchers and practitioners, *A Measure of Success* provides a comprehensive picture of the past, present, and possible future of CBM progress monitoring. The book will be instrumental for researchers and practitioners in both general and special education, particularly those involved in the rapidly growing Response to Intervention (RTI) approach, an approach used to determine the performance and placement of students with learning difficulties. *A Measure of Success* presents a nuanced examination of CBM progress monitoring in reading, math, and content-area learning to assess students at all levels, from early childhood to secondary school, and with a wide range of abilities, from high- and low-incidence disabilities to no disabilities. This study also evaluates how the approach has affected instructional practices, teacher training, psychology and school psychology, educational policy, and research in the United States and beyond. Timely and unique, this volume will interest anyone in education who wants to harness the potential advantage of progress monitoring to improve outcomes for students. The Harlem Charade Oct 08 2020 WATCHER. SHADOW. FUGITIVE. Harlem is home to all kinds of kids. Jin sees life passing her by from the window of her family's bodega. Alex wants to help the needy one shelter at a time, but can't tell anyone who she really is. Elvin's living on Harlem's cold, lonely streets, surviving on his own after his grandfather was mysteriously attacked. When these three strangers join forces to find out what happened to Elvin's grandfather, their digging leads them to an enigmatic artist whose missing masterpieces are worth a fortune--one that might save the neighborhood from development by an ambitious politician who wants to turn it into Harlem World, a ludicrous historic theme park. But if they don't find the paintings soon, nothing in their beloved neighborhood will ever be the same . . . In this remarkable tale of daring and danger, debut novelist Natasha Tarpley explores the way a community defines itself, the power of art to show truth, and what it really means to be home. Praise for *The Harlem Charade*: * "A story that motivates justice and inspires kindness..." -- Kirkus Reviews, starred review "The Harlem Charade links a multifaceted cast of characters with some of Harlem's thorniest issues, and offers dreams, hope, and plenty of action in the process. Few novels take on the real-life neighborhood issues of gentrification, big money, and the destructive loss of old ways. This book does, and in the process shines a light on the magical and complex history of Harlem and its many brilliant art forms. Tarpley shares Harlem's past and present glory with grace and respect, and in the process offers inspiration to all who would love to see its unique beauty survive." -- Blue Balliett, New York Times bestselling author of *Chasing Vermeer* Praise for *I Love My Hair!*: "A very special book about self-acceptance." -- School Library Journal "[A] celebration of African American identity." -- Booklist

Dare to Read: Improving Your Reading Speed and Skills Dec 22 2021 Be in control of your reading. With the Read Through It Strategy, you will be empowered to make decisions while you read. You will gain confidence as you decide how much you learn from any given passage. There are no tests of comprehension or word pronunciation. Essentially, you are on a diet of reading whatever it is you would like to read. You are also free to change it if you are not having fun. You are in control! When 16-year-old student, Karen, read the word "little" as "small," she had no awareness of her error because there was no error in her comprehension. Her teacher, Wade McJacobs, asked himself, "Is that truly an error?" Did she get the word wrong? Yes. Did she fail to understand because of the error? Absolutely not. With guidance Karen learned to have confidence in her reading abilities and in herself. She learned to trust her capacity to perform and to work with the power of her mind. From this Positive Error came the Read Through It Strategy. *Dare to Read: Improving Your Reading Speed and Skills* provides a systematic set of guidelines that will build your confidence as a reader and as a thinking person. By following simple steps and practicing controlled exercises for just a few minutes each day, you will become a more confident and capable reader. Take the quick-start route or get a thorough explanation before you begin—you are in control of your reading journey....

Westward Expansion Nov 01 2022 This 8-week interdisciplinary unit for fourth- and fifth-grade students helps children address the U.S. westward expansion in the 1840's using the interactive software program, *The Oregon Trail*. The unit provides connections to literature, geography, computer/mathematics skills, language arts, and research skills. The work is done in cooperative groups over the course of the unit with a variety of assessment strategies suggested. Worksheets, handouts, and student materials are included. Upon completion of the unit students will be able to: (1) locate and identify the states along the Oregon Trail; (2) identify reasons for westward expansion; (3) gain a basic understanding of some of the native North American culture; (4) participate in collaborative group activities; and (5) demonstrate knowledge of life in the 1840s--food, clothing, families, etc. Selected bibliography contains 32 items. Bound for Oregon May 27 2022 "Basing her story on the published accounts of her true-life heroine, Mary Ellen Todd, Van Leeuwen describes a family's tumultuous journey along the Oregon Trail in 1852." --Publishers Weekly With only a guide book to show them the way, the Todd family sets out from their Arkansas home on a two thousand mile trek to claim unchartered Oregon Territory. Crossing rough terrain and encountering hostile people, the Todds show their true pioneering spirit. But as winter draws near, will the Todds have the strength to complete their journey? And if they make it, will Oregon fulfill their dreams? "This is a convincing picture of a pioneer journey that does a good job of showing the tremendous sacrifices people made to follow their dream of a better life." --School Library Journal

Lety Out Loud Apr 01 2020 Award-winning author Angela Cervantes returns to the fan favorite animal shelter featured in *Gaby, Lost and Found*, with a heartfelt novel about friendship and finding your voice. Can Lety find her voice before it's too late? Lety Muñoz's first language is Spanish, and she likes to take her time putting her words together. She loves volunteering at the animal shelter because the dogs and cats there don't care if she can't always find the right words. When the shelter needs a volunteer to write animal profiles, Lety jumps at the chance. But classmate Hunter also wants to write profiles--so he devises a competition to determine the official shelter scribe. Whoever gets their animals adopted the fastest wins. Lety agrees, but she's worried that if the shelter finds out about the contest, they'll kick her out of the volunteer program. Then she'll never be able to adopt Spike, her favorite dog at the shelter! A Kirkus Reviews Best Book of 2019 A New York Public Library Best Book of 2019 A 2020 Pura Belpré Honor Award Book

Prison Librarianship Policy and Practice Sep 06 2020 Prisoners are in a grey area regarding library services. Prison libraries violate many tenets of librarianship, with the justification of maintaining order. The field is de-professionalized--many positions are filled by persons without degrees in library science, and corrections administrators often write policy for services. Critics cite the need to implement public library service models despite practical difficulties. This book investigates state, national and international policies on prison libraries, reviews literature on the topic and describes partnerships between prisons and public libraries. Results from a national survey and follow-up interviews are included, providing a full narrative of policy outcomes in U.S. prisons.

Windows Into the Classroom Jul 05 2020 Based on a survey conducted in 1992 by the National Assessment of Educational Progress (NAEP), a study examined the types of writing students performed in school, the quality of their classroom writing, and the relationship between their classroom writing and their performance on the NAEP writing assessment. A nationally representative subgroup of more than 3,000 fourth and eighth graders who participated in the 1992 NAEP writing assessment submitted three pieces of writing that represented their best writing efforts and reflected different kinds of writing (narrative, informative, persuasive). Students were asked to give special preference to pieces developed using writing process strategies such as pre-writing activities, consulting with others about writing, and revising successive drafts. Teachers completed a brief questionnaire and students wrote a letter explaining their selections. Each student portfolio underwent a 3-part analysis. Major findings included: (1) most students submitted narrative and/or informative writing; (2) at fourth grade, most of the informative papers were brief and undeveloped; (3) most of the fourth-grade informative writing was at a basic level; (4) the majority of papers showed evidence that their writers had employed process strategies; (5) students who spent more time on writing performed better on their portfolio writing; and (6) generally, the correlation between assessment and portfolio ratings was low for narrative and informative writing for both grades. Contains 32 tables and 9 figures of data. A summary of state writing assessment programs, a 100-item annotated bibliography, a procedural appendix, administration materials, and examples of students' writing are attached.) (RS)

Osteopathic Medicine in Oregon Sep 18 2021 In Oregon's early days, a new form of medical treatment called osteopathic medicine came to the state. This innovative medical treatment, which focused on methods to allow the body to heal itself, was founded in the 1880s by a charismatic medical practitioner, Dr. Andrew Taylor Still. From its beginning in Kirksville, Missouri, and its spread throughout the country, the profession faced fierce and determined opposition from the medical establishment. This book tells the story of osteopathic medicine, and chronicles the struggle of osteopathic physicians to gain more practice rights, equal treatment, and recognition, both nationally and in Oregon. Biographies of many influential Oregon osteopathic physicians help to tell the story of osteopathic medicine's positive impact on the health of the people of Oregon. **Rescue on the Oregon Trail (Ranger in Time #1)** Mar 25 2022 Meet Ranger! Paving the Way in Reading and Writing Jan 11 2021 Definition of Topic: Middle and high school teachers note that all too many adolescent students are less than proficient in reading and writing - the "twin pillars of literacy." Teaching such students to meet today's tougher educational standards can be a challenge. Emphasizing the important connections between comprehension, communication and learning, this book offers teachers in all content areas a structured approach for enabling students to strengthen their reading and writing competency - and thus boost their potential for academic success. Drawing on the author's extensive experience as a teacher and teacher trainer as well as on relevant theory and research, the book presents an arsenal of instructional strategies aimed at improving comprehension and written expression in all types of students. The approach is motivational as well as practical and features extensive tools and techniques for helping students overcome their reading and writing fears, persist in their practice, build on their success, and finally to share what they've learned. The book features many dozens of teacher-tested activities, lessons, and exercises that can be adapted in any classroom and is abundantly illustrated with examples of student work. Lessons involving literary as well as informational texts are included as are visualization and interpretive exercises aimed at appealing to the less verbally-oriented students. The book also provides extensive guidance and tools for helping students improve their vocabulary, grammar, spelling and other language skills as well as their ability to conduct research and access on-line resources. In addition, a special reference section of the book features extensive listings of web-based instructional tools and curricular resources for teachers to use in planning lessons, activities and assignments. This book will serve as an indispensable resource for teachers seeking to build student skills in comprehension, communication, and learning. Selling Points: 1) Presents a proven instructional framework as well

The Reading Glitch Jul 17 2021 Reading disability and illiteracy are among the most pressing educational issues facing the United States today. At least 40 percent of America's fourth-graders are unable to read at grade level and a similar proportion of adults read at the lowest two levels of prose literacy. Here, the authors present an unflinching examination of the science and politics of reading disability in this country. The Reading Glitch sheds light on the philosophical, pedagogical, and cultural causes of reading failure and reveals the scientific findings that point to promising solutions. Includes: - The story of Oregon's Bethel School District where disadvantaged children are becoming top-notch readers and special-education referrals have been reduced as a result of using the three-tier model for preventing and treating reading disabilities - The faulty assumptions underlying many current teaching practices - An overview of the dangerous ideologies that hurt children and hinder educational progress - Studies showing an anomaly in the way disabled readers' brains process print Written in engaging prose, the book shows how the great strides made by recent scientific research are revolutionizing real teaching and real learning. The true stories about the casualties of wrong-headed practices and the people who are working to remedy them bring the historical and scientific points to life. These personal accounts--Q&A interviews with students, parents, educators, researchers, and other community members--are the heart and soul of a book that reveals essential truths about literacy in America.

Reading Fluency Nov 08 2020 Reading fluency has been identified as a key component of proficient reading. Research has consistently demonstrated significant and substantial correlations between reading fluency and overall reading achievement. Despite the great potential for fluency to have a significant outcome on students' reading achievement, it continues to be not well understood by teachers, school administrators and policy makers. The chapters in this volume examine reading fluency from a variety of perspectives. The initial chapter sketches the history of fluency as a literacy instruction component. Following chapters examine recent studies and approaches to reading fluency, followed by chapters that explore actual fluency instruction models and the impact of fluency instruction. Assessment of reading fluency is critical for monitoring progress and identifying students in need of intervention. Two articles on assessment, one focused on word recognition and the other on prosody, expand our understanding of fluency measurement. Finally, a study from Turkey explores the relationship of various reading competencies, including fluency, in an integrated model of reading. Our hope for this volume is that it may spark a renewed interest in research into reading fluency and fluency instruction and move toward making fluency instruction an even more integral part of all literacy instruction.

Apples to Oregon Aug 30 2022 The slightly true narrative of how a brave pioneer father brought apples, pears, plums, grapes, and cherries (and children) across the plains. Apples, ho! When Papa decides to pull up roots and move from Iowa to Oregon, he can't bear to leave his precious apple trees behind. Or his peaches, plums, grapes, cherries, and pears. Oh, and he takes his family along too. But the trail is cruel. First there's a river to cross that's wider than Texas, then there are hailstones as big as plums, and then there's even a drought, sure to crisp the cherries. Luckily Delicious (the nonedible apple of Daddy's eye) won't let anything stop her father's darling saps from tasting the sweet Oregon soil. A hilarious tall tale from the team that brought you Fannie in the Kitchen that's loosely based on the life of a real fruiting pioneer.
