Emily--and her band, the Strangers--are going on tour! But another band is getting all the attention as Awesomely Awesome Records plots to edge Emily's crew out of the rock-and-roll scene. The nefarious record company is also hiding something terrible. It's up to the Strangers to discover what's behind the recent feline disappearances and find a way to drop the bass on the culprits. Emily the Strange creator Rob Reger reteams with cowriter Mariah Huehner (True Blood, Angel) and artist Cat Farris (Angry Birds) for a brand-new, full-color story full of evil record companies, stray-cat struts, science, and music! A "meticulously researched and buoyantly written" (Esquire) look at what happens when we talk to strangers, and why it affects everything from our own health and well-being to the rise and fall of nations in the tradition of Susan Cain's Quiet and Yuval Noah Harari's Sapiens "This lively, searching work makes the case that welcoming 'others' isn't just the bedrock of civilization, it's the surest path to the best of what life has to offer."—Ayad Akhtar, Pulitzer Prize-winning author of Homeland Elegies In our cities, we stand in silence at the pharmacy and in check-out lines at the grocery store, distracted by our phones, barely acknowledging one another, even as rates of loneliness skyrocket. Online, we retreat into ideological silos reinforced by algorithms designed to serve us only familiar ideas and like-minded users. In our politics, we are increasingly consumed by a fear of people we've never met. But what if strangers—so often blamed for our most pressing political, social, and personal problems—are actually the solution? In The Power of Strangers, Joe Keohane sets out on a journey to discover what happens when we bridge the distance between us and people we don't know. He learns that while we're wired to sometimes fear, distrust, and even hate strangers, people and societies that have learned to connect with strangers benefit immensely. Digging into a growing body of cutting-edge research on the surprising social and psychological benefits that come from talking to strangers, Keohane finds that even passing interactions can enhance empathy, happiness, and cognitive development, ease loneliness and isolation, and root us in the world, deepening our sense of belonging. And all the while, Keohane gathers practical tips from experts on how to talk to strangers, and tries them out himself in the wild, to awkward, entertaining, and frequently poignant effect. Warm, witty, erudite, and profound, equal parts sweeping history and self-help journey, this deeply researched book will inspire readers to see everything—from major geopolitical shifts to trips to the corner store—in an entirely new light, showing them that talking to strangers isn't just a way to live; it's a way to survive. Malcolm Gladwell, host of the podcast Revisionist History and author of the #1 New York Times bestseller Outliers, offers a powerful examination of our interactions with strangers and why they often go wrong—now with a new afterword by the author. A Best Book of the Year: The Financial Times, Bloomberg, Chicago Tribune, and Detroit Free Press How did Fidel Castro fool the CIA for a generation? Why did Neville Chamberlain think he could trust Adolf Hitler? Why are campus sexual assaults on the rise? Do television sitcoms teach us something about the way we relate to one another that isn't true? Talking to Strangers is a classically Gladwellian intellectual adventure, a challenging and controversial excursion through history, psychology, and scandals taken straight from the news. He revisits the deceptions of Bernie Madoff, the trial of Amanda Knox, the suicide of Sylvia Plath, the Jerry Sandusky pedophilia scandal at Penn State University, and the death of Sandra Bland—throwing our understanding of these and other stories into doubt. Something is very wrong, Gladwell argues, with the tools and strategies we use to make sense of people we don't know. And because we don't know how to talk to strangers, we are inviting conflict and misunderstanding in ways that have a profound effect on our lives and our world. In his first book since his #1 bestseller David and Goliath, Malcolm Gladwell has written a gripping guidebook for troubled times. It's the 1980s, and art historian Claire Markham reels from a series of heartbreaking losses. Desperate to escape her shattered reality, she becomes an art guide in Europe for quirky stranger

Viv Chancey and embarks on a life-changing journey through the art-filled cities of Milan, Venice, Ravenna, Florence, Siena, Rome, and Paris. Once abroad, Claire tries to hide her woes by focusing on Viv's art education, but Viv--who is not who she seems--has a different learning experience in mind. Frustrated and wanting to reimagine her life, Claire embraces the idea of reality as illusion and finds herself slipping into the tales of art and history. When threatened with one more crushing loss, Claire must learn from the spirit of her eccentric companion and the lessons from the art they encounter to take charge of her life or lose the most precious thing in it. The Art of Traveling Strangers is a journey of self-discovery and personal empowerment inspired by the great art masterpieces of Italy and France. It's a tale of female bonding and the amazing powers of perception. After all, reality, like art, is just an illusion. With more than three-quarters of a million copies sold since its first publication, The Craft of Research has helped generations of researchers at every level—from first-year undergraduates to advanced graduate students to research reporters in business and government—learn how to conduct effective and meaningful research. Conceived by seasoned researchers and educators Wayne C. Booth, Gregory G. Colomb, and Joseph M. Williams, this fundamental work explains how to find and evaluate sources, anticipate and respond to reader reservations, and integrate these pieces into an argument that stands up to reader critique. The fourth edition has been thoroughly but respectfully revised by Joseph Bizup and William T. FitzGerald. It retains the original five-part structure, as well as the sound advice of earlier editions, but reflects the way research and writing are taught and practiced today. Its chapters on finding and engaging sources now incorporate recent developments in library and Internet research, emphasizing new techniques made possible by online databases and search engines. Bizup and FitzGerald provide fresh examples and standardized terminology to clarify concepts like argument, warrant, and problem. Following the same guiding principle as earlier editions—that the skills of doing and reporting research are not just for elite students but for everyone—this new edition retains the accessible voice and direct approach that have made The Craft of Research a leader in the field of research reference. With updated examples and information on evaluation and using contemporary sources, this beloved classic is ready for the next generation of researchers. Sixteen essays by a group of emerging and established international scholars examine Paris as a thriving transnational arts community during a period of burgeoning global immigration. They address the experiences of important modern artists as well as foreign exiles, immigrants, students and expatriates within the larger trends of international mobility. In doing so, they explore the structures that permitted foreign artists to forge connections within and across national communities and contribute to the development of a hybrid and multivalent modern art. Booker Prize-winner Anita Brookner captures the magic and depth of real life with this story of an ordinary man whose unexpected longings, doubts, and fears are universal. Paul Sturgis is resigned to his bachelorhood and the quietude of his London flat. He occasionally pays obliging visits to his nearest living relative, Helena, his cousin's widow. To avoid having to turn down her Christmas invitation, Paul sets off for a holiday in Venice where he meets Mrs. Vicky Gardner, an intriguing woman in the midst of a divorce. Upon his return to England, a former girlfriend, Sarah, reenters Paul's world and these two women spark a transformation in Paul, culminating in a shocking decision. "The antidote to cynicism." A humorous nonfiction book about the lessons, adventures, and lifelong friendships that come from talking to strangers. Through the author's experiences, the book makes the case that talking to strangers is good for you. Includes over 100 original pen-and-ink illustrations by the author. Learning From Strangers is the definitive work on qualitative research interviewing. It draws on Robert Weiss's thirty years of experience in interviewing and teaching others how to do it. The most effective interviews, says Weiss, rely on creating cooperation -- an open and trusting alliance between interviewer and respondent, dedicated to specific and honest accounts of both internal and external events. Against the eclectic background of his work in national sample surveys, studies based on semi-structured interviewing, and participant observation, Weiss walks the reader through the method of qualitative interview studies: sample selection, development of an interview guide, the conduct of the interview, analysis, and preparation of the data. Weiss gives examples of successful and less successful interviews and offers specific techniques and guidelines for the practitioner. A visionary work of radical empathy. Known for immersion journalism that is more immersed than most people are willing to go, and for a prose style that is somehow both fierce and soulful, Jeff Sharlet dives deep into the darkness around us and awaiting us. This work began when his father had a heart attack; two years later, Jeff, still in his forties, had a heart attack of his own. In the grip of writerly self-doubt, Jeff turned to images, taking snapshots and posting them on Instagram, writing short, true stories that bloomed into documentary. During those two years, he spent a lot of time on the road: meeting strangers

working night shifts as he drove through the mountains to see his father; exploring the life and death of Charley Keunang, a once-aspiring actor shot by the police on LA's Skid Row; documenting gay pride amidst the violent homophobia of Putin's Russia; passing time with homeless teen addicts in Dublin; and accompanying a lonely woman drifting into dementia, whose only friend was a houseplant, on shopping trips. Early readers have called this book "incantatory," the voice "prophetic," in "James Agee's tradition of looking at the reality of American lives." Defined by insomnia and late-night driving and the companionship of other darkness-dwellers—night bakers and last-call drinkers, frightened people and frightening people, the homeless and the lost (or merely disoriented), other people on the margins—This Brilliant Darkness erases the boundaries between author, subject, and reader to ask: how do people live with suffering? Based on the theoretical work of Lincoln and Guba, this practical text is designed to help new researchers apply the constructivist paradigm. The authors show how these ideas shape the practice of conducting alternative paradigm research. Covering the research process from design, through data-collection analysis and presentation, as well as important issues generally minimized in positivist research texts - ethics, trustworthiness and authenticity - cases from a wide variety of disciplines demonstrate the efficacy of the methods described. Adored by many, appalling to some, baffling still to others, few authors defy any single critical narrative to the confounding extent that James Baldwin manages. Was he a black or queer writer? Was he a religious or secular writer? Was he a spokesman for the civil rights movement or a champion of the individual? His critics, as disparate as his readership, endlessly wrestle with paradoxes, not just in his work but also in the life of a man who described himself as "all those strangers called Jimmy Baldwin" and who declared that "all theories are suspect." Viewing Baldwin through a cultural-historical lens alongside a more traditional literary critical approach, *All Those Strangers* examines how his fiction and nonfiction shaped and responded to key political and cultural developments in the United States from the 1940s to the 1980s. Showing how external forces molded Baldwin's personal, political, and psychological development, Douglas Field breaks through the established critical difficulties caused by Baldwin's geographical, ideological, and artistic multiplicity by analyzing his life and work against the radically transformative politics of his time. The book explores under-researched areas in Baldwin's life and work, including his relationship to the Left, his FBI files, and the significance of Africa in his writing, while also contributing to wider discussions about postwar US culture. Field deftly navigates key twentieth-century themes—the Cold War, African American literary history, conflicts between spirituality and organized religion, and transnationalism—to bring a number of isolated subjects into dialogue with each other. By exploring the paradoxes in Baldwin's development as a writer, rather than trying to fix his life and work into a single framework, *All Those Strangers* contradicts the accepted critical paradigm that Baldwin's life and work are too ambiguous to make sense of. By studying him as an individual and an artist in flux, Field reveals the manifold ways in which Baldwin's work develops and coheres. A popular columnist for *McSweeney's* describes how she freed herself from crippling fear through taking up karate and used her newfound empowerment to take charge with her husband, her boss and her daughter's bossy Girl Scout troop leader. Booker Prize-winner Anita Brookner captures the magic and depth of real life with this story of an ordinary man whose unexpected longings, doubts, and fears are universal. Paul Sturgis is resigned to his bachelorhood and the quietude of his London flat. He occasionally pays obliging visits to his nearest living relative, Helena, his cousin's widow. To avoid having to turn down her Christmas invitation, Paul sets off for a holiday in Venice where he meets Mrs. Vicky Gardner, an intriguing woman in the midst of a divorce. Upon his return to England, a former girlfriend, Sarah, reenters Paul's world and these two women spark a transformation in Paul, culminating in a shocking decision. A National Book Critics Circle Award Finalist A 2018 Colorado Book Award Finalist As a working mother and poet-lecturer, Camille Dungy's livelihood depended on travel. She crisscrossed America and beyond with her daughter in tow, history shadowing their steps, always intensely aware of how they were perceived, not just as mother and child but as black women. From the San Francisco of settlers' dreams to the slave-trading ports of Ghana, from snow-white Maine to a festive yet threatening bonfire in the Virginia pinewoods, Dungy finds fear and trauma but also mercy, kindness, and community. Penetrating and generous, this is an essential guide for a troubled land. Argues for the practice of talking to strangers as a way of widening one's experience of the world, addressing the transformative possibilities as well as the political and practical considerations of engaging with strangers in public. A young writer hits the dusty Texas highway for the California coast in this "brilliant . . . funny and dangerously tender" (*Time*) tale of art and sacrifice. Hailed as one of "the best novels ever set in America's fourth largest city" (*Douglas Brinkley, New York Times Book Review*), *All My Friends Are Going to Be Strangers* is a powerful demonstration of Larry McMurtry's "comic genius, his ability to render a sense of landscape, and interior intellection tension" (*Jim Harrison, New York Times Book Review*). Desperate to break from the "mundane happiness" of Houston, budding writer Danny Deck hops in his car, "El Chevy," bound for the West Coast on a road trip filled with broken hearts and bleak realities of the artistic life. A cast of unforgettable characters joins the naive troubadour's pilgrimage to California and back to Texas, including a cruel, long-legged beauty; an appealing screenwriter; a randy college professor; and a genuine if painfully "normal" friend. Since the novel's publication in 1972, Danny Deck has "been far more successful at getting loved by readers than he ever was at getting loved by the women in his life" (*McMurtry*), a testament to the author's

incomparable talent for capturing the essential tragicomedy of the human experience. From The New York Times best-selling author of *Paris to the Moon* and beloved New Yorker writer, a memoir that captures the romance of New York City in the 1980s. When Adam Gopnik and his soon-to-be-wife, Martha, first arrived in 1980, New York City was a pilgrimage site for the young, the arty, and the ambitious. But it was also becoming a place where both life's consolations and its necessities were increasingly going to the highest bidder. *At the Strangers' Gate* is a vivid portrait of this time, told through the story of one couple's journey—from their excited arrival as aspiring artists to their eventual growth into a New York family. Through a series of comic mini-anthropologies that capture the fashion, publishing, and art worlds of the era, Adam Gopnik transports us from his tiny basement room on the Upper East Side to a SoHo loft, from his time as a graduate student-cum-library-clerk to the galleries of MoMA. Filled with tender and humorous reminiscences—including affectionate reflections on Richard Avedon, Robert Hughes, and Jeff Koons, among many others—*At the Strangers' Gate* is an ode to New York striving.

In *Strangers*, Rebecca Tama's explores where the human and nonhuman meet, and why this delicate connection just might be the most important relationship of our times. From 'On Watermelon' to 'On Grief', Tama's essays are exhilarating to read in their radical and original exploration of the links between the environmental, the political, the folkloric and the historical. From thinking stones, to fairgrounds, from colliding planets to transformative cockroaches, Tama's lyrical perspective takes the reader on a journey between body, land and spirit—exploring a new ecological vision for our fractured, fragile world.

Essays: On Watermelon • On Hospitality • On Panpsychism • On Greenness • On Pain • On Grief • On Mystery

Lee Erudite yet intimate, moving yet fierce, Rebecca Tamás' hungry exploration of the world – occurring at the porous boundary between literary forms – made me rethink what it means to be humane. — Olivia Sudjic Rebecca Tamás writes searingly on loss, transformation, art and the body. Her writing is tender and sharp, brimming with heat. — Nina Mingya Powles *Strangers* is an extraordinary, essential book. Both quiet and loud. Instead, Wilder has chosen to write about resonant moments in his life, events that led him to an understanding of the art of acting, and -- more important -- to an understanding of how to give love to and receive love from a woman. Wilder writes compellingly about the creative process on stage and screen, and divulges moments from life on the sets of some of the most iconic movies of our time. In this book, he talks about everything from his experiences in psychoanalysis to why he got into acting and later comedy (his first goal was to be a Shakespearean actor), and how a Midwestern childhood with a sick mother changed him. Wilder explains why he became an actor and writer, and about the funny, wonderful movies he made with Mel Brooks, Woody Allen, Richard Pryor, and Harrison Ford, among many others. He candidly reveals his failures in love, and writes about the overwhelming experience of marrying comedienne Gilda Radner, as well as what finally had to happen for him to make a true and lasting commitment to another woman. A thoughtful, revealing, and winsome book about life, love, and the creative process, the New York Times bestseller *Kiss Me Like A Stranger* is one actor's life in his own words.

The Reverend Howard Finster (1916–2001) was called the "Backwoods William Blake" and the "Andy Warhol of the South," and he is considered the godfather of contemporary American folk and visionary art. This book is the first interpretive analysis of the intertwined artistic and religious significance of Finster's work within the context of the American "outsider art" tradition. Finster began preaching as a teenager in the South in the 1930s. But it was not until he received a revelation from God at the age of sixty that he began to make sacred art. A modern-day Noah who saw his art as a religious crusade to save the world before it was too late, Finster worked around the clock, often subsisting on a diet of peanut butter and instant coffee. He spent the last years of his life feverishly creating his environmental artwork called Paradise Garden and what would ultimately number almost fifty thousand works of "bad and nasty art." This was visionary work that obsessively combined images and text and featured apocalyptic biblical imagery, flying saucers from outer space, and popular cultural icons such as Elvis Presley, Marilyn Monroe, Henry Ford, Mona Lisa, and George Washington. In the 1980s and 90s, he developed cult celebrity status, and

he appeared in the Venice Biennale and on the Tonight Show. His work graced the album covers of bands such as R.E.M. and Talking Heads. This book explores the life and religious-artistic significance of Finster and his work from the personal perspective of religion scholar Norman Girardot, friend to Finster and his family during the later years of the artist's life. È A Finalist for the 2019 Kirkus Prize in Nonfiction "Nayeri combines her own experience with those of refugees she meets as an adult, telling their stories with tenderness and reverence." —The New York Times Book Review "Nayeri weaves her empowering personal story with those of the 'feared swarms' . . . Her family's escape from Isfahan to Oklahoma, which involved waiting in Dubai and Italy, is wildly fascinating . . . Using energetic prose, Nayeri is an excellent conduit for these heart-rending stories, eschewing judgment and employing care in threading the stories in with her own . . . This is a memoir laced with stimulus and plenty of heart at a time when the latter has grown elusive." —Star-Tribune (Minneapolis) Aged eight, Dina Nayeri fled Iran along with her mother and brother and lived in the crumbling shell of an Italian hotel-turned-refugee camp. Eventually she was granted asylum in America. She settled in Oklahoma, then made her way to Princeton University. In this book, Nayeri weaves together her own vivid story with the stories of other refugees and asylum seekers in recent years, bringing us inside their daily lives and taking us through the different stages of their journeys, from escape to asylum to resettlement. In these pages, a couple fall in love over the phone, and women gather to prepare the noodles that remind them of home. A closeted queer man tries to make his case truthfully as he seeks asylum, and a translator attempts to help new arrivals present their stories to officials. Nayeri confronts notions like "the swarm," and, on the other hand, "good" immigrants. She calls attention to the harmful way in which Western governments privilege certain dangers over others. With surprising and provocative questions, *The Ungrateful Refugee* challenges us to rethink how we talk about the refugee crisis. "A writer who confronts issues that are key to the refugee experience." —Viet Thanh Nguyen, Pulitzer Prize-winning author of *The Sympathizer* and *The Refugees* Drawing on more than four decades of experience as a researcher and teacher, Howard Becker now brings to students and researchers the many valuable techniques he has learned. *Tricks of the Trade* will help students learn how to think about research projects. Assisted by Becker's sage advice, students can make better sense of their research and simultaneously generate fresh ideas on where to look next for new data. The tricks cover four broad areas of social science: the creation of the "imagery" to guide research; methods of "sampling" to generate maximum variety in the data; the development of "concepts" to organize findings; and the use of "logical" methods to explore systematically the implications of what is found. Becker's advice ranges from simple tricks such as changing an interview question from "Why?" to "How?" (as a way of getting people to talk without asking for a justification) to more technical tricks such as how to manipulate truth tables. Becker has extracted these tricks from a variety of fields such as art history, anthropology, sociology, literature, and philosophy; and his dazzling variety of references ranges from James Agee to Ludwig Wittgenstein. Becker finds the common principles that lie behind good social science work, principles that apply to both quantitative and qualitative research. He offers practical advice, ideas students can apply to their data with the confidence that they will return with something they hadn't thought of before. Like *Writing for Social Scientists*, *Tricks of the Trade* will bring aid and comfort to generations of students. Written in the informal, accessible style for which Becker is known, this book will be an essential resource for students in a wide variety of fields. "An instant classic. . . . Becker's stories and reflections make a great book, one that will find its way into the hands of a great many social scientists, and as with everything he writes, it is lively and accessible, a joy to read." —Charles Ragin, Northwestern University The complete, uncut version of Robert A. Heinlein's all-time masterpiece, the brilliant novel that grew from a cult favorite to a bestseller to a science fiction classic. Raised by Martians on Mars, Valentine Michael Smith is a human who has never seen another member of his species. Sent to Earth, he is a stranger who must learn what it is to be a man. But his own beliefs and his powers far exceed the limits of humankind, and as he teaches them about grokking and water-sharing, he also inspires a transformation that will alter Earth's inhabitants forever... The author says it best: "This book is for people like you and me. People who go to work and—using words, pictures, music, and stories—are expected to make s**t happen . . . to make the phone lines light up and the in-box fill up. Attract fans, friends, and followers. Make the cash register ring. Win the business. Close the deal. Sell something." Joshua Weltman knows just how to do that, and teach others how to do it, too. An advertising creative director for more than 25 years and the *Mad Men* co-producer responsible for Don Draper's credibility as an advertising genius, Weltman distills everything he knows about the art of persuasion into a playbook?of rules, principles, insights, insider anecdotes, and more, all tailored to the fast-changing life in the information economy. Weltman identifies the four elements of selling—one of which is behind everything from a national television campaign to an email blast. There's the ad that makes people curious—want to know more? That creates a sense of urgency—limited time offer! That increases market share—why we're unique, or just better. And the ad that protects margins—thank you for your loyalty. And then Weltman explains how to employ these strategies, including: the six words that win business; the four kinds of stories; what to do if your product sucks; why lying in an ad will never pay off; why information reduces doubt; how to think like a force-multiplier; why different is better than better; why to remove jargon and acronyms and reveal ideas and relationships. Advertising, Joshua Weltman argues, is a toolbox, not a tool, and used right it makes people happy. *Seducing Strangers* shows you how. "People often ask me questions, or ask my opinions, on or about the world of advertising. My stock response is 'You know I play a fictional advertising executive, right?' That's usually used to cover the ignorance or stupidity of whatever I am about to say next. In the future I will simply refer them to Josh Weltman." —from the Foreword by Jon Hamm The Second Edition of *30 Essential Skills for the Qualitative Researcher* provides practical, applied information for the novice qualitative researcher, addressing the "how" of conducting qualitative research in one brief guide. Author John W. Creswell and new co-author Johanna Creswell Báez draw on many examples from their own research experiences, sharing them throughout the book. The 30 listed skills are

competencies that can help qualitative researchers conduct more thorough, more rigorous, and more efficient qualitative studies. Innovative chapters on thinking like a qualitative researcher and engaging with the emotional side of doing qualitative research go beyond the topics of a traditional research methods text and offer crucial support for qualitative practitioners. By starting with a strong foundation of a skills-based approach to qualitative research, readers can continue to develop their skills over the course of a career in research. This revised edition updates skills to follow the research process, using new research from a wide variety of disciplines like social work and sociology as examples. Chapters on research designs now tie back explicitly to the five approaches to qualitative research so readers can better integrate their new skills into these designs. Additional figures and tables help readers better visualize data collection through focus groups and interviews and better organize and implement validity checks. The new edition provides further examples on how to incorporate reflexivity into a study, illuminating a challenging aspect of qualitative research. Information on writing habits now addresses co-authorship and provides more context and variation from the two authors. "Since 2007, Richard Renaldi has been working on a series of photographs that involve approaching and asking complete strangers to physically interact while posing together for a portrait. Working on the street with a large format eight-by-ten-inch view camera, Renaldi encounters the subjects for his photographs in towns and cities all over the United States. He pairs them up and invites them to pose together, intimately, in ways that people are usually taught to reserve for their close friends and loved ones. Renaldi creates spontaneous and fleeting relationships between strangers, for the camera, often pushing his subjects beyond their comfort levels. These relationships may only last for the moment the shutter is released, but the resulting photographs are moving and provocative, and raise profound questions about the possibilities for positive human connection in a diverse society. -- Provided by publisher."--Publisher's description. **START A CONVERSATION AND KEEP IT GOING** We're social creatures. popular creator of primitive sculpture, painting, and architecture, and shows a variety of his work Talking to Strangers is a freshly curated collection of prose, spanning fifty years of work and including famous as well as never-before-published early writings, from 2018 Man Booker Prize–finalist Paul Auster. Beginning with a short philosophical meditation written when he was twenty and concluding with nine political pieces that take on such issues as homelessness, 9/11, and the link between soccer and war, the 44 pieces gathered in this volume offer a wide-ranging view of celebrated novelist Paul Auster’s thoughts on a multitude of classic and contemporary writers, the high-wire exploits of Philippe Petit, how to improve life in New York City (in collaboration with visual artist Sophie Calle), and the long road he has traveled with his beloved manual typewriter. While writing for the New York Review of Books and other publications in the mid-1970s, young poet Auster gained recognition as an astute literary critic with essays on Laura Riding, John Ashbery, Samuel Beckett, Franz Kafka, Paul Celan, and others. By the late seventies and early eighties, as the poet was transforming himself into a novelist, he maintained an active double life by continuing his work as a translator and editing the groundbreaking anthology, The Random House Book of Twentieth-Century Poetry. His prefaces to some of these books are included in Talking to Strangers, among them a heart-wrenching account of Stéphane Mallarmé’s response to the death of his eight-year-old son, Anatole. In recent years, Auster has pushed on with explorations into the work of American artists spanning various periods and disciplines: the notebooks of Nathaniel Hawthorne, the films of Jim Jarmusch, the writings of painter-collagist-illustrator Joe Brainard, and the three-hit shutout thrown by journeyman right-hander Terry Leach of the Mets. Also included here are several rediscovered works that were originally delivered in public: a 1982 lecture on Edgar Allan Poe, a 1999 blast against New York mayor Rudolph Giuliani, and one of the funniest introductions a poetry reading ever heard in the state of New Jersey. A collection of soaring intelligence and deepest humanity, Talking to Strangers is an essential book by “the most distinguished American writer of [his] generation . . . indeed its only author . . . with any claim to greatness.” (The Spectator) "None of us had the faintest idea where we were going [but] during 1938–39 . . . the town [Christchurch] was made strangely interesting for anyone like myself, [with the] scattered arrival of ‘the refugees’. All at once there were people among us who were actually from Vienna, or Chemnitz, or Berlin . . . who knew the work of Schoenberg and Gropius." —Anthony Alpers, 1985 From the 1930s through the 1950s, a substantial number of forced migrants – refugees from Nazism, displaced people after World War II and escapees from Communist countries – arrived in New Zealand from Europe. Among them were an extraordinary group of artists and writers, photographers and architects whose European modernism radically reshaped the arts in this country. In words and pictures, Strangers Arrive tells their story. Ranging across the arts from photographer Irene Koppel to art dealer and printmaker Kees Hos, architect Imric Porsolt to writer Antigone Kefala, Leonard Bell takes us inside New Zealand’s bookstores and coffeehouses, studios and galleries to introduce us to a compelling body of artistic work. He asks key questions. How were migrants received by New Zealanders? How did displacement and settlement in New Zealand transform their work? How did the arrival of European modernists intersect with the burgeoning nationalist movement in the arts in New Zealand? Strangers Arrive introduces us to a talented group of ‘aliens’ who were critical catalysts for change in New Zealand culture. How far will you go to get what you want? Will you be the same person if you do? When twenty-something star sex blogger and memoirist Ethan tracks down his idol, the gifted but obscure forty-ish novelist Olivia, he finds they each crave what the other possesses. As attraction turns to sex, and they inch closer to getting what they want, both must confront the dark side of ambition and the trouble of reinventing oneself when the past is only a click away.
