A Ride to Remember Oct 01
2022 The true story of how a
1963 ride on a carousel in
Maryland made a powerful
Civil Rights statement. *A Ride
to Remember* tells how a
community came
together—both black and

white—to make a change. When Sharon Langley was born in the early 1960s, many amusement parks were segregated, and African-American families were not allowed entry. This book reveals how in the summer of 1963, due to demonstrations and public protests, the Gwynn Oak Amusement Park in Maryland became desegregated and opened to all for the first time. Co-author Sharon Langley was the first African-American child to ride the carousel. This was on the same day of Martin Luther King Jr.'s March on Washington for Jobs and Freedom. Langley's ride to remember demonstrated the possibilities of King's dream. This book includes photos of Sharon on the carousel, authors' notes, a timeline, and a bibliography. "Delivers a beautiful and tender message about equality from the very first page." —Kirkus Reviews, Starred Review "Cooper's richly textured illustrations evoke sepia photographs' dreamlike combination of

distance and immediacy, complementing the aura of reminiscence that permeates Langley and Nathan's narrative." —Publishers Weekly, Starred Review "A solid addition to U.S. history collections for its subject matter and its first-person historical narrative." —School Library Journal

year to come.

Words to Remember: Great Eulogies Through the Ages Apr 02 2020 Some eulogies stick in the mind's of generations and remain for future generations. I can still recall the eulogy of Ted Kennedy in 1968 of his slain brother Bobby Kennedy..My brother need not be idealized, or enlarged in death beyond what he was in life; to be remembered simply as a good and decent man, who saw wrong and tried to right it, saw suffering and tried to heal it, saw war and tried to stop it.Those of us who loved him and who take him to his rest today, pray that what he was to us and what he wished for others will some day come to pass for all the world.As he said many times, in many parts of this nation, to those he touched and who sought to touch him:"Some men see things as they are and say why. I dream things that never were and say why not."

Everything Left to Remember

May 28 2022 "This will cast a spell on fans of Cheryl Strayed and Glennon Doyle." -

Publishers Weekly Between Two Kingdoms meets Wild. In this heart wrenching and inspirational memoir a woman and her mother, who is suffering from dementia, embark on a road trip through national parks, revisiting the memories, and the mountains, that made them who they are. Steph Jagger lost her mother before she lost her. Her mother, stricken with an incurable disease that slowly erases all sense of self, struggles to remember her favorite drink, her favorite song, and—perhaps most heartbreaking of all—Steph

herself. Steph watches as the woman who loved and raised her slips away before getting the chance to tell her story, and so Steph makes a promise: her mother will walk it and she will write it. Too aware of her mother's waning memory, Steph proposes that the two take a camping trip out to Montana—which her mother, on the urging of Steph's father, agrees to embark upon. An adventure full of horseback riding, hiking, and "tenting" out West quickly turns into one woman's reflection on childhood, motherhood, personhood—and what it means to love someone who doesn't quite remember the person she spent her lifetime becoming. A staggeringly beautiful examination of how stories are passed down through generations and from Mother Nature, *Everything Left to Remember* brings us the wisdom of who our memories make us under the constellations of the vast Montana sky.

I Forgot to Remember Jul 30 2022 "Just twenty-two years old, Su Meck was already married and the mother of two children in 1988 when a ceiling fan in the kitchen of her home fell from its mounting and struck her in the head. She survived the life-threatening swelling in her brain that resulted from the accident, but

when she regained consciousness in the hospital the next day, she didn't know her own name. She didn't recognize a single family member or friend, she couldn't read or write or brush her teeth or use a fork--and she didn't have even a scrap of memory from her life up to that point. The fiercely independent and outspoken young woman she had been vanished completely. Most patients who suffer amnesia as a result of a head injury eventually regain their memories, but Su never did. After three weeks in the hospital she was sent back out into a world about which she knew nothing: What did it mean to be someone's wife? To be a mother? How did everyone around her seem to know what they were supposed to do or say at any given moment? Adrift in the chaos of mental data that most of us think of as everyday life, Su became an adept mimic, fashioning a self and a life out of careful observation and ironclad routine. She had no dreams for herself, no plans outside the

ever-burgeoning daily to-do list of a stay-at-home mom. The Meck family left Texas to start over in Maryland, and told almost no one in their new life about Su's accident. Nearly twenty years would pass before Su understood the full extent of the losses she and her family suffered as a result of her injury. As a series of personally devastating events shattered the "normal" life she had worked so hard to build, Su realized that she would have to grow up all over again, and finally take control of the strange second life she had awoken into"--

—Harlequin Junkie on Christmas Bride for the Boss "This was such a gentle, romantic read - the perfect Harlequin Romance novel...I highly recommend."

—Goodreads on The Runaway Bride and the Billionaire *A Night to Remember* Dec 03 2022 #1 New York Times Bestseller: The definitive book on the sinking of the Titanic, based on interviews with survivors, by the author of The Miracle of Dunkirk. At first, no

one but the lookout recognized the sound. Passengers described it as the impact of a heavy wave, a scraping noise, or the tearing of a long calico strip. In fact, it was the sound of the world's most famous ocean liner striking an iceberg, and it served as the death knell for 1,500 souls. In the next two hours and forty minutes, the maiden voyage of the Titanic became one of history's worst maritime accidents. As the ship's deck slipped closer to the icy waterline, women pleaded with their husbands to join them on lifeboats. Men changed into their evening clothes to meet death with dignity. And in steerage, hundreds fought bitterly against certain death. At 2:15 a.m. the ship's band played "Autumn." Five minutes later, the Titanic was gone. Based on interviews with sixty-three survivors, Lord's moment-by-moment account is among the finest books written about one of the twentieth century's bleakest nights.

Remember to Remember

Nov 02 2022 Our news these days is full of wars in which genocide is being inflicted with inhuman savagery on innocent people. With each new headline the name of the previous atrocity fades into the shadows and its victims are forgotten in favor of the new ones. But every horror must be remembered and taught to following generations so that each country's people remain aware and don't let the evil ever happen again. *Remember to Remember* is set in Cambodia and is the fictionalized true story of Chanbopha, a courageous child who, despite her youth, survives the death march from Phnom Penh and through the Khmer Rouge killing fields. Using her own ingenuity she finds food for her family in the working prison farm in which many starve and few emerge whole. Through all the ugliness, Chanbopha sees glimpses of beauty, and this allows nothing to deter her from fighting for her dream of taking her mother and siblings

to a life of freedom.

A Call to Remember May 16 2021 Piper Jean Potts Streyle was brutally murdered on July 29, 1996 by serial killer, Robert Leroy Anderson. He had taken the life of another woman in 1994 and failed to take another. Streyle was abducted from her home in Canistota, South Dakota mid-morning, leaving behind two small children, who had witnessed the kidnapping. She was presumably ruined and her body has never been recovered. I was the little girl who witnessed a kidnapping: visions of hell to always be etched in my mind. I was also the girl who would not testify in a court of law. I was the girl who hid behind her soft blanket and would not face the stark terrifying truth. I would not affirm, again, the face I knew was my mother's murderer. I would not testify. I am that girl. I wish to no longer be known as the girl who would not testify, but as the woman who will. I will testify. I will speak and I will tell. This is my testimony, through the recalling of

memories, answering: A Call to Remember.

Remembering to Remember

Sep 19 2021 Jamey Leary lives in his right brain. Always has. Imagination is reality of choice. As he passes through mid life he is both thankful for his blessings and sadly aware that he is as tortured and overwhelmed as he was at twenty. A good day is one not drowned by the din of sensation, information and expectation no one else seems to hear. Remembering is not simply a theme in Jamey's story but a ribbon running through his life. Almost connected vignettes move us with him through the seasons, forward and backward in time. Sentimental snapshots, odd observations and quirky conversations with friends and lovers give us some insight into this disheartened romantic and help him learn about himself. But ultimately there is no transformative epiphany - only the continuing trek of one survivor attempting to make sense out of his time here and yearning in his dearest dreams

to be a mover of souls and a healer of hearts.

Why We Forget and How to

Remember Better Nov 29

2019 "One of us (Elizabeth) had the opportunity to conduct research with a gentleman named Henry Molaison (better known by his initials, H.M.1), who had the interior portion of his left and right temporal lobes (the part of your brain next to your temples) removed in 1953 because of epileptic seizures that were difficult to control. From a technical standpoint, the surgical procedures went fine. But, as he recovered, the doctors and researchers soon noticed something very troubling: he was unable to form any new memories. He could read, and talk, and if you were having a brief conversation with him, you would probably not notice anything amiss. But family members would visit and, although he knew who they were, he would have no memory of them coming. New doctors would introduce themselves and the next day (or even the next hour) he did

not recall that he had met them. It was then that the doctors understood that, somehow, the removal of those parts of the temporal lobe caused him to become completely amnesic"--
