Includes music. New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea. A thinly veiled autobiographical account of one woman's austere life in the north Georgia mountains, *A Circuit Rider's Wife* draws on the years Corra Harris accompanied her husband in his work as a Methodist missionary. Set mostly in the fictional Redwine circuit, the novel tells of the challenges, hardships, and--aside from the occasional homemade or homegrown donations--mostly intangible rewards of itinerant country preaching. Through the eyes of Elizabeth Thompson, the circuit rider's wife and narrator, Harris offers a witty but caring assessment of the sometimes fine differences between spiritual and merely religious folks, town and

country society, backsliders and straight-and-narrow plodders, Methodists and Baptists, and heaven and hell. The first comprehensive work on Chinese American women's history covering the past 150 years. This book presents an analysis of masculinity construction in a large corpus of women's magazines, adopting a feminist Critical Stylistic approach to reveal how men are talked about and 'sold' to women as part of a successful performance of hegemonic femininity. This novel approach identifies women's magazines as sites of 'lad culture' that perpetuate ideologies more commonly associated with the 'laddism' of male-targeted media. It examines how stereotypical images of men as naturally aggressive and obsessed with sex are promoted, as well as considering some of the ways in which women's magazines contribute to the social construction of normative understandings of gender and sexuality more broadly. This engaging work will offer fresh insights to students and scholars of (Critical) Discourse Analysis, Sociolinguistics, Corpus Linguistics, Stylistics, and Gender and Communication Studies. The various roles of women in the United States from 1815 to 1890 are examined first, viewed from social, religious, and physical standpoints in a crisp and slightly wry fashion. Innovations and Challenges: Women, Language and Sexism brings together an outstanding collection of essays from internationally recognised researchers to recontextualise some of the questions raised by feminist thinkers 40 years ago. By taking linguistically mediated violence as a central topic, this collection's main objective is to explore the different and subtle ways sexism and violence are materialised in discursive practices. In doing so, this book: Takes a multi-stranded investigation into the linguistic and semiotic representations of sexism in societies from an applied linguistic and semiotic perspective; Combines critical discourse analysis, multimodality, interactional sociolinguistics and corpus methodologies to look at language, visuals and semiotic resources in the context of consumerist culture;

Examines the conflicted position of women and the discourses of discrimination that still exist in every strand of modern societies; Contextualises pervasive gender issues and reviews key gender and language topics that changed the ways we interpret interaction from the early 1970s until the present; Focuses on institutional discourses and the questions of how women are excluded or discriminated against in the workplace, the law and educational contexts. *Innovations and Challenges: Women, Language and Sexism* revisits the initial questions posed by the first feminist linguists - where, when and how are women discriminated against and why, in postmodern societies, is there so much sexism in all realms of social life? This book is essential reading for those studying and researching gender across a wide range of disciplines. Based on ethnographic research with victims of intimate partner violence since 2014, this book brings to the forefront women's experiences of, negotiations about, and contestations against violence, and men's narratives about the reasons for their violence. Using an innovative methodology - online chat groups, it foregrounds the role of history, structural inequalities, and the cultural system of power hierarchy in situating and constructing intimate partner violence. Centering on men and women's narratives about violence, this book connects intimate partner violence with invisible structural violence - the historical, cultural, political, economic, and legal context that gives rise to and perpetuates violence against women. Through examining the ways in which women's lives are constrained by various forms of violence, hierarchy, and inequality, this book shows that violence against women is a structural issue that is historically produced and politically and culturally engaged. Touching letters written by a loving couple; musty letters that detail past lives—my parents' letters. A housewife and her sailor husband with shared immigrant experiences penned more than 500 letters during World War II, and the letters inform this book. Abridged versions of the letters

weave a loving romantic story with actual events occurring on the home front and the battlefield. The letters are further brought to life through the 25 original family photographs and remembrances from the period. The 75th anniversary of the end of World War II will be celebrated in 2020. Most of the participants have passed on. While servicemen's stories have been broadly told, the tales of the resolute war wives, who had a significant impact on the outcome of the war and the well-being of the country, have not been widely shared. While some women joined the military, and others entered the workforce for the first time, the majority stayed at home to raise children. *Dear Hubby of Mine* focuses on this latter group of women whose stories have been under-represented and largely uncelebrated in World War II literature. In addition, my parents' immigrant backgrounds formed in the Hungarian community in Cleveland, Ohio, shed light on the experiences of other minority groups and refugees that came before and after them. While many readers may see the story as a touching romance, and it is, others may appreciate the depiction of the country in the 1940s under wartime conditions and how that influenced America's culture in the decades to come. Women charted new roles during the war that led to new freedoms in the years ahead and eventually brought about major societal changes. The book introduces both theoretical and applied perspectives, identifying and explaining the relevant frameworks and drawing on a range of activities/examples of how gender is constructed in discourse. The book is divided into three parts. Part I covers the historical background to the study of gender and language, moving on through past theoretical approaches to a discussion of current debates in the field, with particular emphasis on the role of discourse analysis. In Part II, gender is examined in context with chapters focussing on gender and language in education, the mass media and the workplace. Finally, Part III briefly looks at key principles and approaches to gender and language research and includes activities, study

questions and resources for teachers in the field. Rich with examples and activities drawn from current debates and events, this book is designed to be appealing and informative and will capture the imaginations of readers from a range of backgrounds and disciplines. In this major new collection, an international team of scholars examine the relationship between the Chinese women's periodical press and global modernity in the late nineteenth and twentieth centuries. The essays in this richly illustrated volume probe the ramifications for women of two monumental developments in this period: the intensification of China's encounters with foreign powers and a media transformation comparable in its impact to the current internet age. The book offers a distinctive methodology for studying the periodical press, which is supported by the development of a bilingual database of early Chinese periodicals. Throughout the study, essays on China are punctuated by transdisciplinary reflections from scholars working on periodicals outside of the Chinese context, encouraging readers to rethink common stereotypes about lived womanhood in modern China, and to reconsider the nature of Chinese modernity in a global context.

(Amadeus). His exceptional good looks made him a matinee idol, and Franco Corelli the Prince of Tenors was dubbed "Mr. Soldout" for 20 consecutive years. In 1958, just seven years after beginning his career, he was already the highest-paid tenor in Italy. Following his Met debut in 1961, he was celebrated as the greatest tenor in the world, a position that he retained until his departure from the Met in 1975. His charismatic performances in such operas as *La Vestale* and *Fedora* (both in collaboration with Maria Callas), coupled with a formidable mystique, as well as a number of notorious and colorful incidents, including his real-life sword fight with Boris Christoff in Rome, the Callas walkout there, the beating up of a spectator in Naples, and the alleged biting of Birgit Nilsson on a Boston tour of *Turandot*, created a mania for Corelli. Nearly a decade in the making, this definitive

biography is based on the author's extensive research of theater archives and interviews with the opera star's numerous friends, family members, colleagues (Nilsson, Pavarotti, and many others), as well as the management of some of the world's leading opera houses. The essays collected in *Analyzing the Different Voice: Feminist Psychological Theory and Literary Texts* apply influential, pathbreaking psychological studies about women's lives to literature. In their analyses of fictional portraits, contributors both challenge and confirm psychological theories about female identity, about 'connection/separation' as developmental catalysts, and about the impact of gender on 'voice,' moral decision-making, and epistemology in relation to classical and contemporary literary texts, written by both women and men. Here is the quintessential Bing Crosby tribute from the pen of author and music historian, Richard Grudens, documenting the story of Crosby's colourful life, family, radio and television shows, and films; the amazing success story of a career that pioneered popular music spanning generations and inspiring many followers: Frank Sinatra, Tony Bennett, Perry Como, Jerry Vale, Dean Martin, Eddie Fisher, Pat Boone, Elvis Presley and Billy Eckstine, all of whom acknowledge their debt right between the covers of this book. An inspirational introduction by his lovely wife, Kathryn Grant Crosby, is followed by endearing, anecdotal accounts of those ubiquitous 'Road' films with Bob Hope, and detailed personal testimonials from show business icons in their own words. A 'must read' for Crosby fans, collectors, admirers, music lovers, and everyone who cherishes the music and anecdotes of the players involved in the Golden Age of Popular Music. On the meaning of money Japonisme, the nineteenth-century fascination for Japanese art, has generated an enormous body of scholarship since the beginning of the twenty-first century, but most of it neglects the women who acquired objects from the Far East and sold them to clients or displayed them in their homes before bequeathing them to museums. The stories of

women shopkeepers, collectors, and artists rarely appear in memoirs left by those associated with the japoniste movement. This volume brings to light the culturally important, yet largely forgotten activities of women such as Clémence d'Ennery (1823–1898), who began collecting Japanese and Chinese chimeras in the 1840s, built and decorated a house for them in the 1870s, and bequeathed the “Musée d'Ennery” to the state as a free public museum in 1893. A friend of the Goncourt brothers and a fifty-year patron of Parisian dealers of Asian art, d'Ennery's struggles to gain recognition as a collector and curator serve as a lens through which to examine the collecting and display practices of other women of her day. Travelers to Japan such as the Duchesse de Persigny, Isabella Stewart Gardner, and Laure Durand-Fardel returned with souvenirs that they shared with friends and family. Salon hostesses including Juliette Adam, Louise Cahen d'Anvers, Princesse Mathilde, and Marguerite Charpentier provided venues for the discussion and examination of Japanese art objects, as did well-known art dealers Madame Desoye, Madame Malinet, Madame Hatty, and Madame Langweil. Writers, actresses, and artists—Judith Gautier, Thérèse Bentzon, Sarah Bernhardt, and Mary Cassatt, to name just a few—took inspiration from the Japanese material in circulation to create their own unique works of art. Largely absent from the history of Japonisme, these women—and many others—actively collected Japanese art, interacted with auction houses and art dealers, and formed collections now at the heart of museums such as the Louvre, the Musée Guimet, the Musée Cernuschi, the Musée Unterlinden, and the Metropolitan Museum of Art.
