Fear of Judging Sep 30 2022 For two centuries, federal judges exercised wide discretion in criminal sentencing. In 1987 a complex bureaucratic apparatus termed Sentencing "Guidelines" was imposed on federal courts. FEAR OF JUDGING is the first full-scale history, analysis, and critique of the new sentencing regime, arguing that it sacrifices comprehensibility and common sense.

Federal Sentencing the Basics Dec 30 2019 This paper provides an overview of the federal sentencing system. For historical context, it first briefly discusses the evolution of federal sentencing during the past four decades, including the landmark passage of the Sentencing Reform Act of 1984 (SRA),¹ in which Congress established a new federal sentencing system based primarily on sentencing guidelines, as well as key Supreme Court decisions concerning the guidelines. It then describes the nature of federal sentences today and the process by which such sentences are imposed. The final parts of this paper address appellate review of sentences; the revocation of offenders' terms of probation and supervised release; the process whereby the United States Sentencing Commission (the Commission) amends the guidelines; and

the Commission's collection and analysis of sentencing data.

The Handbook of White-Collar Crime Sep 26 2019 A comprehensive and state-of-the-art overview from internationally-recognized experts on white-collar crime covering a broad range of topics from many perspectives Law enforcement professionals and criminal justice scholars have debated the most appropriate definition of “white-collar crime” ever since Edwin Sutherland first coined the phrase in his speech to the American Sociological Society in 1939. The conceptual ambiguity surrounding the term has challenged efforts to construct a body of science that meaningfully informs policy and theory. The Handbook of White-Collar Crime is a unique re-framing of traditional discussions that discusses common topics of white-collar crime—who the offenders are, who the victims are, how these crimes are punished, theoretical explanations—while exploring how the choice of one definition over another affects research and scholarship on the subject. Providing a one-volume overview of research on white-collar crime, this book presents diverse perspectives from an international team of both established and newer scholars that review theory, policy, and empirical work on a broad range of topics. Chapters explore the extent and cost of white-collar crimes, individual- as well as organizational- and macro-level theories of crime, law enforcement roles in prevention and intervention, crimes in Africa and South America, the influence of technology and globalization, and more.

This important resource: Explores diverse implications for future theory, policy, and research on current and emerging issues in the field Clarifies distinct characteristics of specific types of offences within the general archetype of white-collar crime Includes chapters written by researchers from countries commonly underrepresented in the field Examines the real-world impact of ambiguous definitions of white-collar crime on prevention, investigation, and punishment Offers critical examination of how definitional decisions steer the direction of criminological scholarship Accessible to readers at the undergraduate level, yet equally relevant for experienced practitioners, academics, and researchers, *The Handbook of White-Collar Crime* is an innovative, substantial contribution to contemporary scholarship in the field.

Handbook on Sentencing Policies and Practices in the 21st Century Jun 15 2021

Sentencing Policies and Practices in the 21st Century focuses on the evolution and consequences of sentencing policies and practices, with sentencing broadly defined to include plea bargaining, judicial and juror decision making, and alternatives to incarceration, including participation in problem-solving courts. This collection of essays and reports of original research explores how sentencing policies and practices, both in the United States and internationally, have evolved, explores important issues raised by guideline and non-guideline sentencing, and provides an overview of recent research on plea bargaining in the United States, Australia, and the United Kingdom. Other topics include the role of criminal history in sentencing, the past and future of capital punishment, strategies for reducing mass incarceration, problem-solving courts, and restorative justice practices. Each chapter summarizes what is known, identifies the gaps in the research, and discusses the theoretical, empirical, and policy implications of the research findings. The volume is grounded in current knowledge about the specific topics, but also presents new material that reflects the thinking of the leading minds in

the field and that outlines a research agenda for the future. This is Volume 4 of the American Society of Criminology's Division on Corrections and Sentencing handbook series. Previous volumes focused on risk assessment, disparities in punishment, and the consequences of punishment decisions. The handbooks provide a comprehensive overview of these topics for scholars, students, practitioners, and policymakers.

Recidivism Among Federal Drug Trafficking Offenders Sep 18 2021

Sentencing Guidelines Apr 13 2021 The politics of criminal sentencing has recently crystallised around the issue of whether and how a system of structured sentencing should inform judicial approaches to punishing criminals. Increasingly, structured sentencing guidelines are being introduced to frame judicial discretion. This volume is the first to examine the experience in England and Wales in the light of international developments. This collection of essays begins with a clear and concise history of the guidelines as well as a description of how they function. Topics addressed include the effect of guidelines on judicial practice, the role of public opinion in developing sentencing guidelines, the role of the crime victim in sentencing guidelines, and the use of guidelines by practicing barristers. In addition, the international dimension offers a comparative perspective: the English guidelines are explored by leading academics from the United States and New Zealand. Although there is a vast literature on sentencing guidelines across the United States, the English guidelines have attracted almost no attention from scholars. As other jurisdictions look to introduce more structure to sentencing, the English scheme offers a real alternative to current US schemes. Contributors include practicing lawyers, legal and socio-legal academics, and also scholars from several other countries including New Zealand and the United

States, providing a multidisciplinary and cross-jurisdictional approach to sentencing. This book will be of interest to academics from law, sociology and criminology, legal practitioners, and indeed anyone else with an interest in sentencing, around the world.
