Experiential exercises tap into students' intrapersonal and body-kinesthetic intelligences, allowing students to "experience" key social studies concepts firsthand. A much-needed and delightful book. It shows how history can be taught with the meaningful experiences of each child at its centre, making connections between the child, the locality and community, the national and global past and concepts of time. Throughout the authors empower teachers to adopt their philosophy, by showing them how to plan, select resources and strategies and reflect on ideas and case studies. Hilary Cooper, Emeritus professor of history and pedagogy, The University of Cumbria, UK. Bringing History Alive through Local People and Places puts the local environment and community at the heart of history, showing how it can be used as the context for successful history teaching across the primary age range. It considers how to develop children's concepts and skills through local history, how to link local, national and global aspects of history, and helps you develop your own historical knowledge, understanding and confidence in teaching the subject. Practical topics explored include: Investigating children's cultural and geographical roots through fieldwork Finding and visiting local museums, archives and heritage sights Choosing and using resources Using significant people, events and buildings to link with national history Environmental education and sustainable development through local history Understanding the links between history and everyday life Planning and assessing history. Based on the latest research and practice in the field, Bringing History Alive through Local People and Places offers an exciting template of creative ideas and activities to show teachers how they can make history relevant to all children. John Lewis’s story has always been a complicated narrative of

bravery, loss, and redemption, and Run gives vivid, energetic voice to a chapter of transformation in his young, already extraordinary life.” –Stacey Abrams “*In sharing my story, it is my hope that a new generation will be inspired by Run to actively participate in the democratic process and help build a more perfect Union here in America.*” –Congressman John Lewis

The sequel to the #1 New York Times bestselling graphic novel series March—the continuation of the life story of John Lewis and the struggles seen across the United States after the Selma voting rights campaign. To John Lewis, the civil rights movement came to an end with the signing of the Voting Rights Act in 1965. But that was after more than five years as one of the preeminent figures of the movement, leading sit-in protests and fighting segregation on interstate busways as an original Freedom Rider. It was after becoming chairman of SNCC (the Student Nonviolent Coordinating Committee) and being the youngest speaker at the March on Washington. It was after helping organize the Mississippi Freedom Summer and the ensuing delegate challenge at the 1964 Democratic National Convention. And after coleading the march from Selma to Montgomery on what became known as “Bloody Sunday.” All too often, the depiction of history ends with a great victory. But John Lewis knew that victories are just the beginning. In Run: Book One, John Lewis and longtime collaborator Andrew Aydin reteam with Nate Powell—the award-winning illustrator of the March trilogy—and are joined by L. Fury—making an astonishing graphic novel debut—to tell this often overlooked chapter of civil rights history. A wonderful collection of folk songs--our living link with our nation's history. Enjoy the songs and stories of our past that have been passed down from generation to generation. Songs that make you laugh, make you cry, or make your patriotic spirit soar. Winner of the Grateful American Book Prize This moving story of two young Union soldiers “joins other great middle grade novels about the Civil War”—an “excellent” read “for all fans of historical fiction who enjoy a hint of romance.” (School Library Journal) Leander and Polly are two teenage Union soldiers who carry deep, dangerous secrets . . . Leander is underage when he enlists; Polly follows her father into war, disguised as his son. Soon, the war proves life changing for both as they survive incredible odds. Leander struggles to be accepted as a man and loses his arm. Polly mourns the death of her father, endures Andersonville Prison, and narrowly escapes the Sultana steamboat disaster. As the lives of these young, brave soldiers intersect, each finds a wealth of courage and learns about the importance of loyalty, family, and love. Like a River is a lyrical atmospheric first novel told in two voices. Readers will be transported to the homes, waterways, camps, hospitals, and prisons of the Civil-War era. They will also see themselves in the universal themes of dealing with parents, friendships, bullying, failure, and young love. For more information on the products in the History Alive for the Australian Curriculum series, click here During the 1976 Bicentennial celebration, millions of Americans engaged with the past in brand-new ways. They became absorbed by historical miniseries like Roots, visited museums with new exhibits that immersed them in the past, propelled works of historical fiction onto the bestseller list, and participated in living history events across the nation. While many of these activities were sparked by the Bicentennial, M. J. Rymysz-Pawlowska shows that, in fact, they were symptomatic of a fundamental shift in Americans' relationship to history during the 1960s and 1970s. For the majority of the twentieth century, Americans thought of the past as foundational to, but separate from, the present, and they learned and thought about history in informational terms. But Rymysz-Pawlowska argues that the popular culture of the 1970s reflected an emerging desire to engage and enact the past on a more emotional level: to consider the feelings and motivations of historic individuals and, most importantly, to use this in reevaluating both the past and the present. This thought-provoking book charts the era's shifting feeling for history, and explores how it serves as a foundation for the experience and practice of history making today.
