Italian Custom Motorcycles Oct 05 2020 Many books have been published about Italian motorcycles, but none has focused exclusively on the Italian motorcycle-based chopper, bobber, trike, and quad custom bike scene – until now. Even though customising is not normally associated with Italian brands, there are some fantastic individually-built Italian custom bikes out there, old and new. In recognition of the trend, Ducati entered into a new market segment when it launched its power cruiser Diavel in November 2010, while Moto Guzzi has its Aquila Nero range ... these and many other custom-style bikes have been well-received in the customs scene. This book looks at some of the fascinating custom projects around the world, accompanied by stunning photography of the finished bikes. A great book for Italian bike fans, and fans of the custom bike scene in general.
