United Nations Champion of the Earth, climate scientist, and evangelical Christian Katharine Hayhoe changes the debate on how we can save our future in this nationally bestselling “optimistic view on why collective action is still possible—and how it can be realized” (The New York Times). Called “one of the nation’s most effective communicators on climate change” by The New York Times, Katharine Hayhoe knows how to navigate all sides of the conversation on our changing planet. A Canadian climate scientist living in Texas, she negotiates distrust of data, indifference to imminent threats, and resistance to proposed solutions with ease. Over the past fifteen years Hayhoe has found that the most important thing we can do to address climate change is talk about it—and she wants to teach you how. In *Saving Us*, Hayhoe argues that when it comes to changing hearts and minds, facts are only one part of the equation. We need to find shared values in order to connect our unique identities to collective action. This is not another doomsday narrative about a planet on fire. It is a multilayered look at science, faith, and human psychology, from an icon in her field—recently named chief scientist at The Nature Conservancy. Drawing on interdisciplinary research and personal stories, Hayhoe shows that small conversations can have astonishing results. *Saving Us* leaves us with the tools to open a dialogue with your loved ones about how we all can play a role in pushing forward for change. The official, definitive, and unique celebration of a century of achievement in U.S. soccer. With one of the fastest-growing domestic leagues in the world and national teams asserting their presence on an international stage—and the U.S. womens’ team taking the gold medal at the London 2012 Olympic games—American soccer is at a peak. Opening its archives for the first time, the U.S. Soccer Federation takes us on a visual journey, from the introduction of the beautiful game a century ago in the amateur leagues of towns in the industrial northeast to soccer’s dominance as the fastest-growing sport across America today. This book is illustrated with remarkable and rarely seen mementos, from vintage portraits of the first national teams in the 1920s to game programs, ticket stubs, jerseys, and exciting pictures of today’s and past stars in action. With contributions from stars spanning generations of American soccer, including firsthand testimonies from coaches and players themselves, the book profiles the most talented players of the men’s and women’s national teams over the decades, looks at the coaches who have changed the game, celebrates the most memorable moments and unforgettable goals, and chronicles the U.S.’s greatest achievements, from the World Cup to the Olympics. When Ann L. Sittig made a quick stop at a secondhand shop in a small meatpacking town in Nebraska, she overheard a couple speaking Spanish with the unmistakable inflection of Mayan. When she inquired further, the couple confirmed that they were Mayans from Guatemala and indicated there were lots of Mayans living in the area. Soon afterward, Sittig met Martha Florinda Gonz•lez, a Mayan community leader living in Nebraska, and together they began gathering the oral histories of contemporary Mayan women living in the state and working in meatpacking plants. In *The Mayans Among Us*, Sittig and Gonz•lez focus on the unique experiences of the Central American indigenous immigrants who are often overlooked in media coverage of Latino and Latina migration to the Great Plains. Many of the Mayan immigrants are political refugees from repressive, war-torn countries and as such are distinct from Latin America’s economic immigrants. Sittig and Gonz•lez initiated group dialogues with Mayan women about the psychological, sociological, and economic wounds left by war, poverty, immigration, and residence in a new country. The Mayans share their concerns and hopes as they negotiate their new home, culture, language, and life in Nebraska in order to survive and send economic support back home for their children. Longtime Nebraskans share their perspectives on the immigrants as well. *The Mayans Among Us* poignantly explores how Mayan women in rural Nebraska meatpacking plants weave together their three distinct identities: Mayan, Central American, and American. Johnson examines the early years of U.S. aviation to discover why, at the time of our entry into WWI, our air forces were so far behind those the Allies and the Germans were creating. He shows that a study of the origins of U.S. Army air power must look beyond considerations of technological development and military thinking to include an analysis of public opinion and the forces that shaped governmental action. Now a PBS Masterpiece television miniseries starring Tom Hollander and Saskia Reeves “I loved this book. Funny, sad, tender: for anyone who wants to know what happens after the Happy Ever After.” — Jojo Moyes, author of *Me Before You* David Nicholls brings the wit and intelligence that graced his New York Times bestseller, *One Day*, to a compellingly human, deftly funny novel about what holds marriages and families together—and what happens, and what we learn about ourselves, when everything threatens to fall apart. Douglas Petersen may be mild-mannered, but behind his reserve lies a sense of humor that, against all odds, seduces beautiful Connie into a second date . . . and eventually into marriage. Now, almost three decades after their relationship first blossomed in London, they live more or less happily in the suburbs with their moody seventeen year-old son, Albie. Then Connie tells him she thinks she wants a divorce. The timing couldn’t be worse. Hoping to encourage her son’s artistic interests, Connie has planned a month-long tour of European capitals, a chance to experience the world’s greatest works of art as a family, and she can’t bring herself to cancel. And maybe going ahead with the original plan is for the best anyway? Douglas is privately convinced that this landmark trip will rekindle the romance in the marriage, and might even help him to bond with Albie. Narrated from Douglas’s endearingly honest, slyly witty, and at times achingly optimistic point of view, *Us* is the story of a man trying to rescue his relationship with the woman he loves, and learning how to get closer to a son who’s always felt like a stranger. It is a moving meditation on the demands of marriage and parenthood, the regrets of abandoning youth for middle age, and the intricate relationship between the heart and the head. Opposing US imperialism and global domination, Shor combines academic and activist perspectives to propose a utopian vision for theoretically and practically realizing another world. **ECPA BESTSELLER**—Over one million copies sold! When a charming polar bear cub climbs into bed one night, she asks her Mama a very important question, one that little “human cubs” often wonder about, too: “Where did I come from?” As Mama bear tucks her youngest cub under the quilts, she gently,

tenderly, and reassuringly communicates the message loving parents everywhere (bears and non-bears alike) want their little ones to hear: "We wanted you very, very much, and we are so very glad because—God gave us you." Perfect for bedtime, naptime, storytime or anytime, *God Gave Us You* provides a valuable opportunity to build children's self-esteem every day and assure each one that he or she truly is a welcomed, precious, and treasured gift from the Lord. Also available in the *God Gave Us* series: *God Gave Us Two* *God Gave Us Christmas* *God Gave Us Heaven* *God Gave Us Love* *God Gave Us So Much* In this "brave and heartbreaking novel that digs its claws into you and doesn't let go, long after you've finished it" (Anna Todd, New York Times bestselling author) from the #1 New York Times bestselling author of *All Your Perfects*, a workaholic with a too-good-to-be-true romance can't stop thinking about her first love. Lily hasn't always had it easy, but that's never stopped her from working hard for the life she wants. She's come a long way from the small town where she grew up—she graduated from college, moved to Boston, and started her own business. And when she feels a spark with a gorgeous neurosurgeon named Ryle Kincaid, everything in Lily's life seems too good to be true. Ryle is assertive, stubborn, maybe even a little arrogant. He's also sensitive, brilliant, and has a total soft spot for Lily. And the way he looks in scrubs certainly doesn't hurt. Lily can't get him out of her head. But Ryle's complete aversion to relationships is disturbing. Even as Lily finds herself becoming the exception to his "no dating" rule, she can't help but wonder what made him that way in the first place. As questions about her new relationship overwhelm her, so do thoughts of Atlas Corrigan—her first love and a link to the past she left behind. He was her kindred spirit, her protector. When Atlas suddenly reappears, everything Lily has built with Ryle is threatened. An honest, evocative, and tender novel, *It Ends with Us* is "a glorious and touching read, a forever keeper. The kind of book that gets handed down" (USA TODAY). Winner of the 2001 Carey McWilliams Award. This paperback edition of Mike Davis's investigation into the Latinization of America incorporates the extraordinary findings of the 2000 Census as well as new chapters on the militarization of the Border and violence against immigrants. *U.S. Foreign Policy: Back to the Water's Edge* is based on the old idea that despite domestic differences and party politics, Americans should unite "at the water's edge" and present a cohesive front to a hostile world. The fifth edition explores this theme through coverage of the Trump administration, its early policies, and how Trump's initiatives fit into the broader historical patterns of foreign policy in the United States. More compact than most of its competitors, the fifth edition packs necessary information and concepts into a lean but readable format. It contains rich historical content, providing the reader with snapshots of some of the truly classic highlights—and lowlights—of America's record in foreign affairs. Written with the student reader in mind, each chapter offers several pedagogical aids designed to reinforce and extend comprehension of the material. This text is also accompanied by a companion reader. *Regional Cases in Foreign Policy, Second Edition*, was written by Don Snow with the specific intention of providing material and perspectives not contained in the text. The reader contains fourteen mini-cases that can accompany classroom discussions or lectures on subjects as diverse as relations with Russia, Israel, or the Islamic State; specific questions like the border fence with Mexico; U.S.-Cuban relations; or the British withdrawal from the European Union (Brexit). Case examples are drawn from all parts of the world. Johnnie wants to celebrate her Papa's birthday, but Papa doesn't know exactly when that special day is. Johnnie doesn't understand how that could be. Then she learns about Papa's childhood—how he built a new life in the all-Black town of Boley, Oklahoma. Inspired by her father's incredible story, Johnnie decides to throw Papa a different kind of party—one to recognize her Father's Day of freedom. Based on a true story about the author's grandfather, *Papa's Free Day Party* is a powerful celebration of storytelling, strength, and the importance of family. The book's author, Marilyn Nelson, is the author of the memoir *How I Discovered Poetry*, written in a series of 50 poems. An "absorbing" account of the CIA's 1953 coup in Iran—essential reading for anyone concerned about Iran's role in the world today (Harper's Magazine). In August 1953, the Central Intelligence Agency orchestrated the swift overthrow of Iran's democratically elected leader and installed Muhammad Reza Shah Pahlavi in his place. When the 1979 Iranian Revolution deposed the shah and replaced his puppet government with a radical Islamic republic under Ayatollah Ruhollah Khomeini, the shift reverberated throughout the Middle East and the world, casting a long, dark shadow over United States-Iran relations that extends to the present day. In this authoritative new history of the coup and its aftermath, noted Iran scholar Ervand Abrahamian uncovers little-known documents that challenge conventional interpretations and sheds new light on how the American role in the coup influenced diplomatic relations between the two countries, past and present. Drawing from the hitherto closed archives of British Petroleum, the Foreign Office, and the US State Department, as well as from Iranian memoirs and published interviews, Abrahamian's riveting account of this key historical event will change America's understanding of a crucial turning point in modern United States-Iranian relations. A Choice Outstanding Academic Title "Not only is this book important because of its presentation of history. It is also important because it might be predicting the future." —Counterpunch "Subtle, lucid, and well-proportioned." —The Spectator "A valuable corrective to previous work and an important contribution to Iranian history." —American Historical Review *Dangerously Addictive, The Secrets of Us* is a pulse-pounding exploration of a disturbed psyche and the bond between two sisters desperate to escape a troubled past. Foster sisters Krystal and Nichole have always been there for each other, so when Nichole is committed to a psychiatric hospital after trying to kill her husband, Krystal drops everything to defend her. Scarred by a hard upbringing, Nichole and Krystal managed to construct comfortable lives for themselves. Krystal became a respected lawyer, and Nichole was happily married to an architect—until Nichole starts raving that her husband isn't her husband, believing that he's an imposter. Driven by fierce loyalty, Krystal starts asking questions, but she's not sure she can bear the answers. Her investigation leads to the sisters' dark shared past...to a horrible tragedy and a well-guarded lie that cemented their sisterly bond. But that lie can't kill the truth—the battered, gasping, clawing truth that's coming for them both. Now Krystal and Nichole must both fight for the lives they've built before they're consumed by the one they left behind. This thesis deals with contemporary African American science fiction. It focuses on three texts by Derrick Bell, Octavia Butler, and Walter Mosley and examines the ways in which they convert the dominantly white SF genre. By addressing non-traditional issues such as racism, racial boundaries, and the politics of species, these alien encounter stories demonstrate that it is not the intruders from outer space who are the real threat to U.S. society but their own (white) U.S. Government. (Series: MasterResearch - Vol. 2) **NEW YORK TIMES BESTSELLER • LONGLISTED FOR THE NATIONAL BOOK AWARD** • One of today's most insightful and influential thinkers offers a powerful exploration of inequality and the lesson that generations of Americans have failed to learn: Racism has a cost for everyone—not just for people of color. **WINNER OF THE PORCHLIGHT BUSINESS BOOK AWARD • ONE OF THE BEST BOOKS OF THE YEAR:** Time, The Washington Post, St. Louis Post-Dispatch, Ms. magazine, BookRiot, Library Journal • **LONGLISTED FOR THE ANDREW CARNEGIE MEDAL** • "This is the book I've been waiting for."—Ibram X. Kendi, #1 New York Times bestselling author of *How to Be an Antiracist* Heather McGhee's specialty is the American economy—and the mystery of why it so often fails the American public. From the financial crisis of 2008 to rising student debt to collapsing public infrastructure, she found a root problem: racism in our politics and policymaking. But not just in the most obvious indignities for people of color. Racism has costs for white people, too. It is the common

denominator of our most vexing public problems, the core dysfunction of our democracy and constitutive of the spiritual and moral crises that grip us all. But how did this happen? And is there a way out? McGhee embarks on a deeply personal journey across the country from Maine to Mississippi to California, tallying what we lose when we buy into the zero-sum paradigm—the idea that progress for some of us must come at the expense of others. Along the way, she meets white people who confide in her about losing their homes, their dreams, and their shot at better jobs to the toxic mix of American racism and greed. This is the story of how public goods in this country—from parks and pools to functioning schools—have become private luxuries; of how unions collapsed, wages stagnated, and inequality increased; and of how this country, unique among the world’s advanced economies, has thwarted universal healthcare. But in unlikely places of worship and work, McGhee finds proof of what she calls the Solidarity Dividend: the benefits we gain when people come together across race to accomplish what we simply can’t do on our own. The Sum of Us is not only a brilliant analysis of how we arrived here but also a heartfelt message, delivered with startling empathy, from a black woman to a multiracial America. It leaves us with a new vision for a future in which we finally realize that life can be more than a zero-sum game. Featuring interviews with Justin Timberlake, Pharrell Williams, T Bone Burnett, Gloria Estefan, Imogen Heap and many more, *Two Beats Ahead* shows us what the musical mind has to teach us about innovation. Musicians may just hold the keys to innovation in business. They don't think like we do, and in the creative process, they don't act like we do. It isn't a coincidence that some of the world's most respected creators, like Jimmy Iovine and Bjork, are also entrepreneurs. In *Two Beats Ahead*, the Global Design Director at IDEO and the Senior Vice President for Global Strategy & Innovation at Berklee College of Music interview some of the nation's top musicians and business leaders about how they approach innovation differently. Panay and Hendrix speak with Justin Timberlake about the importance of demoing, and discuss the essentials of acute listening with Jimmy Iovine. Readers will learn the secrets to maximizing results in a collaboration from Beyoncé and Pharrell Williams. They'll learn the importance of experimentation from musical pioneers Imogen Heap and Radiohead, and have a front row seat in a conversation about producing with T Bone Burnett and Hank Shocklee, co-founder of Public Enemy. Offering clear and concise mindsets that any entrepreneur or innovative thinker can put into practice, this is a one-of-a-kind business book that shows how to thrive in an evolving world—from some of the top creative geniuses of our time. Forging a life together after being abandoned by their parents, half sisters Eva and Iris share decades in and out of the spotlight in golden-era Hollywood and mid-20th-century Long Island. The author of *A Man Called Ove* returns with “a lyrical look at how a community heals, how families recover, and how individuals grow” (The Washington Post). “Fans of Backman will not be disappointed. His work continues to amaze and captivate, enlighten and thrill.” —Shelf Awareness A small community tucked deep in the forest, Beartown is home to tough, hardworking people who don’t expect life to be easy or fair. No matter how difficult times get, they’ve always been able to take pride in their local ice hockey team. So it’s a cruel blow when they hear that their town’s ice hockey club might soon be disbanded. What makes it worse is the obvious satisfaction that all the former Beartown players, who now play for a rival team in the neighboring town of Hed, take in that fact. But the arrival of a newcomer gives Beartown hockey a chance at a comeback. Soon a team starts to take shape around Amat, the fastest player you’ll ever see; Benji, the intense lone wolf; always dutiful and eager-to-please Bobo; and Vidar, a born-to-be-bad troublemaker. But bringing this team together proves to be a huge challenge, especially as the town’s enmity with Hed grows more and more acute as the big game approaches. By the time the last goal is scored, a resident of Beartown will be dead, and the people of both towns will be forced to wonder if, after everything, the game they love can ever return to something as simple and innocent as a field of ice, two nets, and two teams. *Us against you*. Here is a declaration of love for all the big and small, bright and dark stories that give form and color to our communities. With immense compassion and insight, Fredrik Backman reveals how loyalty, friendship, and kindness can carry a town through its most challenging days. Lily and her ex-husband, Ryle, have just settled into a civil coparenting rhythm when she suddenly bumps into her first love, Atlas, again. But her excitement is quickly hampered by the knowledge that, though they are no longer married, Ryle is still very much a part of her life—and Atlas Corrigan is the one man he will hate being in his ex-wife and daughter's life. Two children’s book superstars—#1 New York Times bestseller Jacqueline Woodson, the author of *The Day You Begin*, and Leo Espinosa, the illustrator of *Islandborn*—join forces to celebrate the joy and freedom of summer in the city, which is gloriously captured in their rhythmic text and lively art. (This book is also available in Spanish, as *El mundo era nuestro!*) "Author Ken Mochizuki reads his award-winning book. There is some soft background music, and a few gentle sound effects, but the power of the words need little embellishment...This treasure of a book is well-treated in this format." - School Library Journal *Uses a tale about mice disagreeing over laws requiring that all mice eat the same cheese every day of the week to introduce readers to the workings of the Supreme Court. Chronicles the history of the United States from the time of the Missouri Compromise, when Maine and Missouri became states, until Abraham Lincoln's election to the presidency. Given the protracted, varied, and geographically expansive changes in migration over time, it is difficult to establish an overarching theory that adequately analyzes the school experiences of immigrant youth in the United States. This volume extends the scholarly work on these experiences by exploring how immigrants carve out new identities, construct meanings, and negotiate spaces for themselves within social structures created or mediated by education policy and practice. It highlights immigrants that position themselves within global movements while experiencing the everyday effects of federal, state, and local education policy, a phenomenon referred to as glocal (global-local) or localized global phenomena. Chapter authors acknowledge and honor the agency that immigrants wield, and combine social theories and qualitative methods to empirically document the ways in which immigrants take active roles in enacting education policy. Surveying immigrants from China, Bangladesh, India, Haiti, Japan, Colombia, and Liberia, this volume offers a broad spectrum of immigrant experiences that problematize policy narratives that narrowly define notions of "immigrant," "citizenship," and "student." Kaplan shows how U.S. imperialism—from “Manifest Destiny” to the “American Century”—has profoundly shaped key elements of American culture at home, and how the struggle for power over foreign peoples and places has disrupted the quest for domestic order. For *All of Us, One Today* is a fluid, poetic story anchored by Richard Blanco’s experiences as the inaugural poet in 2013, and beyond. In this brief and evocative narrative, he shares for the first time his journey as a Latino immigrant and openly gay man discovering a new, emotional understanding of what it means to be an American. He tells the story of the call from the White House committee and all the exhilaration and upheaval of the days that followed. He reveals the inspiration and challenges behind the creation of the inaugural poem, “One Today,” as well as two other poems commissioned for the occasion (“Mother Country” and “What We Know of Country”), published here for the first time ever, alongside translations of all three of those poems into his native Spanish. Finally, Blanco reflects on his life-changing role as a public voice since the inauguration, his spiritual embrace of Americans everywhere, and his vision for poetry’s new role in our nation’s consciousness. Like the inaugural poem itself, *For All of Us, One Today* speaks to what makes this country and its people great, marking a historic moment of hope and promise in our evolving American landscape. In 2017, U2 is featuring “One Today” during their Joshua Tree tour throughout the United States and Europe. The poem*

will be projected on the stage screens as people enter the stadium to reflect and discuss America and the American experience. 2014 International Latino Awards Winner: Best Biography – Spanish or Bilingual The mythmakers of US expansion have expressed “manifest destiny” in many different ways—and so have its many discontents. A multidisciplinary study that delves into these contrasts and contradictions, *Inventing Destiny* offers a broad yet penetrating cultural history of nineteenth-century US territorial acquisition—a history that gives voice to the underrepresented actors who significantly complicated US narratives of empire, from Native Americans and Anglo-American women to anti- and non-national expansionists. The contributors—established and emerging scholars from history, American studies, literary studies, art history, and religious studies—make use of source materials and techniques as various as artwork, religion, geospatial analysis, interior colonialism, and storytelling alongside fresh readings of traditional historical texts. In doing so, they seek to illuminate the complexities rather than simplify, to transgress borders rather than redraw them, and to amplify the under-told stories rather than repeat the old ones. Their work identifies and explores the obscure—or obscured—fictions of expansion, seeking a deeper understanding of the mechanisms of culture creation and recognizing those who resisted US territorial aggrandizement. In sum, *Inventing Destiny* demonstrates the value of cross-disciplinary approaches to the study of the multiple rationales, critiques, interventions, and contingencies of nineteenth-century US expansion.
